See the definition of the main items in the notes at the end of the chapter.

a. Data from the Spanish Tax Agency's department of Customs and Excise Duties. These data are used as inputs for Balance of Payments estimates. Data for years up to two years before the year of the last observation are definitive and more recent data are provisional.

b. Spain's flows to/from the European Union included in primary income (taxes on production and imports, and subsidies), secondary income and the capital account.
