

PAPER VERSION OF THE CAPI QUESTIONNAIRE

**SURVEY OF HOUSEHOLD FINANCES
2002**

1.- DEMOGRAPHIC CHARACTERISTICS (ALL RESPONDENTS)

q.1 First, could you tell me how many people there are in your household at the moment, including yourself and children, but excluding any domestic servants?¹

Fill in number of members

I am now going to **ask you about each household member**: to follow an order we will start with the reference person (who may be yourself) and continue with the other adults. I will also ask you for their names, as later we will refer to each of them and this will make it easier to identify them.

¹ A **household** is defined as a **group of people living together in the same accommodation and sharing expenses**. It includes members of the household who are temporarily absent (for example, on holiday, studying away from home, etc.) and excludes domestic servants.

² There may be up to nine members in the household.

³ The reference person is the person, or one of the persons, responsible for the accommodation. It will normally be the person in the household who chiefly deals with the financial issues.

³⁰ Own-consumption is understood to refer to that portion of goods (primarily foodstuffs) produced by the owner's own farm, factory or workshop by any member(s) of the household that is consumed or given away by the household in the reference period. Goods so consumed are valued, in general, at the prices prevailing on the local retail market at the time of consumption or giving away, or at the time they reach the home.

³¹ Self-supply is understood to refer to that portion of goods withdrawn (without payment) from the business by any of the members of the owning household, and which is consumed or given away by the household during the reference period. It is valued in the same manner as own-consumption.
