Unless otherwise indicated, data relate to non-seasonally adjusted statistics. In addition to the developments for June 2010, this press release incorporates minor revisions to the data for previous periods. As of the reference periods December 2008 and December 2009, respectively, two euro area countries extended the coverage of debt securities issued to include also the non-MFI corporations and the short-term debt securities issued by the general government sector; the coverage of quoted shares has also been expanded to include also international listings. As the annual growth rates are based on financial transactions that occur when an institutional unit incurs or redeems liabilities, they are not affected by the impact of any other changes which do not arise from transactions. A complete set of updated securities issues statistics is available on the "Monetary and financial statistics" pages of the "Statistics" section of the ECB's
