

13 November 2012

PRESS RELEASE

EURO AREA SECURITIES ISSUES STATISTICS: SEPTEMBER 2012

The annual growth rate of the outstanding amount of debt securities issued by euro area residents was 3.5% in September 2012, compared with 3.6% in August. For the outstanding amount of quoted shares issued by euro area residents, the annual growth rate was 0.9% in September 2012, the same as in August.

New issuance of debt securities by euro area residents totalled EUR 836 billion in September 2012. Redemptions stood at EUR 857 billion and net redemptions amounted to EUR 17 billion.¹ The annual growth rate of outstanding debt securities issued by euro area residents was 3.5% in September 2012, compared with 3.6% in August (see Table 1 and Charts 1 and 3).

The annual rate of change of outstanding short-term debt securities decreased from 1.5% in August 2012 to -2.2% in September. For long-term debt securities, the annual growth rate increased from 3.8% in August 2012 to 4.1% in September. The annual growth rate of outstanding fixed rate long-term debt securities increased from 5.1% in August 2012 to 5.6% in September. The annual rate of change of outstanding variable rate long-term debt securities decreased from -0.3% in August 2012 to -1.2% in September (see Table 1 and Chart 3).

As regards the sectoral breakdown, the annual growth rate of outstanding debt securities issued by non-financial corporations increased from 10.7% in August 2012 to 12.3% in September. For the monetary financial institutions (MFIs) sector, this growth rate decreased from 3.6% in August 2012 to 2.4% in September. The annual growth rate of outstanding debt securities issued by financial corporations other than MFIs was 0.6% in

¹ As a full breakdown of net issues into gross issues and redemptions is not available due to missing data, the difference between aggregated gross issues and redemptions may deviate from the aggregated net issues.

September 2012, the same as in August. For the general government, this growth rate increased from 4.1% in August 2012 to 4.5% in September (see Table 2 and Chart 4).

The annual growth rate of outstanding short-term debt securities issued by MFIs decreased from 14.9% in August 2012 to 8.3% in September. The annual growth rate of outstanding long-term debt securities issued by MFIs decreased from 2.2% in August 2012 to 1.6% in September (see Table 2).

Concerning the currency breakdown, the annual growth rate of outstanding euro-denominated debt securities was 3.5% in September 2012, compared with 3.6% in August. For debt securities in other currencies, this growth rate decreased from 3.5% in August 2012 to 2.7% in September (see Table 1).

New issuance of quoted shares by euro area residents totalled EUR 2.7 billion in September 2012. Redemptions came to EUR 0.5 billion and net issues amounted to EUR 2.1 billion. The annual growth rate of the outstanding amount of quoted shares issued by euro area residents (excluding valuation changes) was 0.9% in September 2012, the same as in August. The annual growth rate of quoted shares issued by non-financial corporations was 0.4% in September 2012, compared with 0.3% in August. For MFIs, the corresponding growth rate increased from 4.6% in August 2012 to 4.9% in September. For financial corporations other than MFIs, this growth rate decreased from 3.3% in August 2012 to 2.7% in September (see Table 4 and Chart 6).

The market value of the outstanding amount of quoted shares issued by euro area residents totalled EUR 4,242 billion at the end of September 2012. Compared with EUR 3,733 billion at the end of September 2011, this represents an annual increase of 13.6% in the value of the stock of quoted shares in September 2012, up from 5.7% in August.

Unless otherwise indicated, data relate to non-seasonally adjusted statistics. In addition to the developments for September 2012, this press release incorporates minor revisions to the data for previous periods. The annual growth rates are based on financial transactions that occur when an institutional unit incurs or redeems liabilities, they are not affected by the impact of any other changes which do not arise from transactions. A complete set of updated securities issues statistics is available on the "Monetary and financial statistics" pages of the Statistics section of the ECB's website <http://www.ecb.europa.eu/stats/money/securities/html/index.en.html>. These data, as well as euro area data in accordance with the composition of the euro area at the time of the reference period, can be downloaded using the ECB's Statistical Data

Source: ECB securities issues statistics.

1) "Short-term" means securities with an original maturity of one year or less (in exceptional cases two years or less). Securities with a longer original maturity, or with optional maturity dates, the latest of which is more than one year away, or with indefinite maturity dates, are classified as long-term.

2) The residual difference between total long-term debt securities and fixed and variable rate long-term debt securities consists of zero coupon bonds and revaluation effects.

3) As a full breakdown of net issues into gross issues and redemptions may not always be available, the difference between aggregated gross issues and redemptions may deviate from the aggregated net issues.

4) Monthly averages of the transactions during this period.

5) Annual growth rates are based on financial transactions that occur when an institutional unit incurs or redeems liabilities. The annual growth rates therefore exclude the impact of reclassifications, revaluations, exchange rate variations and any other changes which do not arise from transactions.

1) Corresponding ESA 95 sector codes: MFIs (including Eurosystem) comprises the ECB and the national central banks of the euro area (S.121) and other monetary financial institutions (S.122); financial corporations other than MFIs comprises other financial intermediaries (S.123), financial auxiliaries (S.124) and insurance corporations and pension funds (S.125); non-financial corporations (S.11); central government (S.1311); other general government comprises state government (S.1312), local government (S.1313) and social security funds (S.1314).

2) The residual difference between total long-term debt securities and fixed and variable rate long-term debt securities consists of zero coupon bonds and revaluation effects.

3) As a full breakdown of net issues into gross issues and redemptions may not always be available, the difference between aggregated gross issues and redemptions may deviate from the aggregated net issues.

4) Monthly averages of the transactions during this period.

5) Annual growth rates are based on financial transactions that occur when an institutional unit incurs or redeems liabilities. The annual growth rates therefore exclude the impact of reclassifications, revaluations, exchange rate variations and any other changes which do not arise from transactions.

1) Corresponding ESA 95 sector codes: MFIs (including Eurosystem) comprises the ECB and the national central banks of the euro area (S.121) and other monetary financial institutions (S.122); financial corporations other than MFIs comprises other financial intermediaries (S.123), financial auxiliaries (S.124) and insurance corporations and pension funds (S.125); non-financial corporations (S.11); central government (S.1311); other general government comprises state government (S.1312), local government (S.1313) and social security funds (S.1314).

2) Three-month annualised growth rates are based on financial transactions that occur when an institutional unit incurs or redeems liabilities. The three-month annualised growth rates therefore exclude the impact of reclassifications, revaluations, exchange rate variations and any other changes which do not arise from transactions. The rates are annualised to allow direct comparisons with annual rates (please note that the non-adjusted rates presented in Table 2 are almost identical to seasonally adjusted annual rates).

1) Corresponding ESA 95 sector codes: MFIs refers to other monetary financial institutions (S.122); financial corporations other than MFIs comprises other financial intermediaries (S.123), financial auxiliaries (S.124) and insurance corporations and pension funds (S.125); non-financial corporations (S.11).

2) Monthly averages of the transactions during this period.

3) Percentage change between the amount outstanding at the end of the month and the amount outstanding 12 months earlier.

4) Annual growth rates are based on transactions that occur during the period and therefore exclude reclassifications and any other changes which do not arise from transactions.
