

PRESS RELEASE

EURO AREA INVESTMENT FUND STATISTICS NOVEMBER 2012

In November 2012, the amount outstanding of shares/units issued by euro area investment funds other than money market funds was €82 billion higher than in October 2012. This increase was due mainly to increases in share/unit prices.

The **amount outstanding of shares/units issued by euro area investment funds other than money market funds** increased to €6,454 billion in November 2012, from €6,372 billion in October 2012. Over the same period, the amount outstanding of shares/units issued by euro area money market funds stood at €946 billion, unchanged from the previous month.

Transactions¹ in shares/units issued by euro area investment funds other than money market funds amounted to €25 billion in November 2012, while transactions in shares/units issued by money market funds amounted to €2 billion.

The annual growth rate of shares/units issued by euro area investment funds other than money market funds, calculated on the basis of transactions, was 4.5% in November 2012, while the annual growth rate of shares/units issued by euro area money market funds was 0.9%.

1) Annual percentage changes are calculated on the basis of transactions.

2) The breakdown by investment policy is generally based on the types of asset in which the investment funds primarily invest, usually on the basis of a stated strategy (e.g. if the fund invests primarily in shares and other equity, it is allocated to the "equity funds" category). Funds investing in both equity and bonds, without any prevalent policy for either, are allocated to the "mixed funds" category. Hedge funds are classified in line with the statistical definition set out in Guideline ECB/2007/9. In particular, they cover funds with relatively unconstrained investment strategies and few restrictions on the types of financial asset in which they may invest. If a fund cannot be classified as an equity, bond, mixed, real estate or hedge fund, it is included in the residual "other funds" category.

3) The shares/units of open-end funds can be redeemed out of the fund's assets. Closed-end funds are funds with a fixed number of issued shares/units.
