

EUROPEAN CENTRAL BANK

EUROSYSTEM

PRESS RELEASE

14 April 2015

Euro Area Securities Issues Statistics: February 2015

The annual rate of change of the [outstanding amount of debt securities](#) issued by euro area residents decreased from -0.6% in January 2015 to -0.9% in February. For the [outstanding amount of listed shares](#) issued by euro area residents, the annual growth rate was 1.4% in February 2015, compared with 1.5% in January.

[New issuance](#) of debt securities by euro area residents totalled EUR 538 billion in February 2015. [Redemptions](#) stood at EUR 522 billion and [net issues](#) amounted to EUR 26 billion.¹ The annual rate of change of [outstanding debt securities](#) issued by euro area residents decreased from -0.6% in January 2015 to -0.9% in February (see Table 1 and Charts 1 and 3).

The annual rate of change of outstanding [short-term debt securities](#) decreased from -3.7% in January 2015 to -4.6% in February. For [long-term debt securities](#), the annual rate of change was -0.6% in February 2015, compared with -0.4% in January. The annual growth rate of outstanding [fixed rate long-term debt securities](#) was 2.6% in February 2015, compared with 2.7% in January. The annual rate of change of outstanding [variable rate long-term debt securities](#) decreased from -8.3% in January 2015 to -9.3% in February (see Table 1 and Chart 3).

As regards the sectoral breakdown, the annual growth rate of outstanding [debt securities issued by non-financial corporations](#) increased from 3.6% in January 2015 to 5.0% in February. For the [monetary financial institutions \(MFIs\)](#) sector, this rate of change was -8.1% in February 2015, compared with -8.3% in January. The annual growth rate of outstanding debt securities issued by [financial corporations other](#)

¹ As a full breakdown of net issues into gross issues and redemptions is not available due to missing data, the difference between aggregated gross issues and redemptions may deviate from the aggregated net issues.

[than MFIs](#) was 1.2% in February 2015, compared with 1.3% in January. For the [general government](#), this growth rate decreased from 3.1% in January 2015 to 2.2% in February (see Table 2 and Chart 4).

The annual rate of change of outstanding [short-term debt securities issued by MFIs](#) decreased from -2.7% in January 2015 to -3.7% in February. The annual rate of change of outstanding [long-term debt securities issued by MFIs](#) was -8.7% in February 2015, compared with -8.9% in January (see Table 2).

Concerning the currency breakdown, the annual rate of change of outstanding [euro-denominated debt securities](#) decreased from -1.8% in January 2015 to -2.1% in February. For [debt securities in other currencies](#), this growth rate was 7.8% in February 2015, the same as in January (see Table 1).

[New issuance](#) of listed shares by euro area residents totalled EUR 2.8 billion in February 2015. [Redemptions](#) came to EUR 3.2 billion and [net issues](#) amounted to EUR 2.0 billion.² The annual growth rate of the outstanding amount of [listed shares issued by euro area residents](#) (excluding valuation changes) was 1.4% in February 2015, compared with 1.5% in January. The annual growth rate of listed shares issued by [non-financial corporations](#) was 0.7% in February 2015, the same as in January. For [MFIs](#), the corresponding growth rate was 6.8% in February 2015, compared with 6.9% in January. For [financial corporations other than MFIs](#), this growth rate decreased from 1.5% in January 2015 to 1.2% in February (see Table 4 and Chart 6).

The market value of the [outstanding amount of listed shares](#) issued by euro area residents totalled EUR 6,856 billion at the end of February 2015. Compared with EUR 5,829 billion at the end of February 2014, this represents an annual increase of 17.6% in the value of the stock of listed shares in February 2015, up from 15.7% in January.

Unless otherwise indicated, data relate to non-seasonally adjusted statistics. In addition to the developments for February 2015, this press release incorporates minor revisions to the data for previous periods. The annual growth rates are based on financial transactions that occur when an institutional unit incurs or redeems liabilities, they are not affected by the impact of any other changes which do not arise from transactions.

A complete set of updated securities issues statistics is available on the "Monetary and financial statistics" pages of the Statistics section of the ECB's website <http://www.ecb.europa.eu/stats/money/securities/html/index.en.html>. These data, as well as euro area data in accordance with the composition of the euro area at the time of the reference period, can be

² As a full breakdown of net issues into gross issues and redemptions is not available due to missing data, the difference between aggregated gross issues and redemptions may deviate from the aggregated net issues.

downloaded using the ECB's Statistical Data Warehouse (SDW). The tables and charts accompanying this press release are also available in the reports section of the SDW (<http://sdw.ecb.europa.eu/reports.do?node=1000002753>).

The next press release on euro area securities issues will be published on 13 May 2015.

- 1) "Short-term" debt securities comprise securities that have an original maturity of one year or less, even if they are issued under longer-term facilities. Debt securities with a longer original maturity, with optional maturity dates, the latest of which is more than one year away, or with indefinite maturity dates are classified as "long-term".
- 2) The residual difference between total long-term debt securities and fixed and variable rate long-term debt securities consists of zero coupon bonds and revaluation effects.
- 3) As a full breakdown of net issues into gross issues and redemptions may not always be available, the difference between aggregated gross issues and redemptions may deviate from the aggregated net issues.
- 4) Monthly averages of the transactions during this period.
- 5) Annual growth rates are based on financial transactions that occur when an institutional unit incurs or redeems liabilities. The annual growth rates therefore exclude the impact of reclassifications, revaluations, exchange rate variations and any other changes which do not arise from transactions.

- 1) Corresponding ESA 2010 sector codes: "MFIs" (including the Eurosystem) comprises the ECB and the national central banks of the euro area (S.121), as well as deposit-taking corporations except the central bank (S.122); "financial corporations other than MFIs" comprises other financial intermediaries, except insurance corporations and pension funds (S.125), financial auxiliaries (S.126), captive financial institutions and money lenders (S.127) and insurance corporations (S.128); "non-financial corporations" (S.11); "central government" (S.1311); "other general government" comprises state government (S.1312), local government (S.1313) and social security funds (S.1314).
- 2) The residual difference between total long-term debt securities and fixed and variable rate long-term debt securities consists of zero coupon bonds and revaluation effects.
- 3) As a full breakdown of net issues into gross issues and redemptions may not always be available, the difference between aggregated gross issues and redemptions may deviate from the aggregated net issues.
- 4) Monthly averages of the transactions during this period.
- 5) Annual growth rates are based on financial transactions that occur when an institutional unit incurs or redeems liabilities. The annual growth rates therefore exclude the impact of reclassifications, revaluations, exchange rate variations and any other changes which do not arise from transactions.

1) Corresponding ESA 2010 sector codes: "MFIs" (including the Eurosystem) comprises the ECB and the national central banks of the euro area (S.121), as well as deposit-taking corporations except the central bank (S.122); "financial corporations other than MFIs" comprises other financial intermediaries, except insurance corporations and pension funds (S.125), financial auxiliaries (S.126), captive financial institutions and money lenders (S.127) and insurance corporations (S.128); "non-financial corporations" (S.11); "central government" (S.131); "other general government" comprises state government (S.1312), local government (S.1313) and social security funds (S.1314).

2) Three-month annualised growth rates are based on financial transactions that occur when an institutional unit incurs or redeems liabilities. The three-month annualised growth rates therefore exclude the impact of reclassifications, revaluations, exchange rate variations and any other changes which do not arise from transactions. The rates are annualised to allow direct comparisons with annual rates (please note that the non-adjusted rates presented in Table 2 are almost identical to seasonally adjusted annual rates).
