Conference: “Monetary policy and financial stability in the Mediterranean region”

The Development and Solidarity Council (CDS) and the European Institute of the Mediterranean (IEMed) organized a conference under the theme “Monetary policy and financial stability in the Mediterranean region” on November 27, 2015, in collaboration with Bank Al-Maghrib and the Bank of Spain.

On the sidelines of this event, the Governors of Moroccan and Spanish central banks held a bilateral meeting at the headquarters of Bank Al-Maghrib, Rabat. This conference follows the meeting held in May 2004 in Madrid and a subsequent one that took place in March 2007 in Valencia, on the occasion of the fourth Euro-Mediterranean seminar.

During the Rabat meeting, Governor Abdellatif Jouahri and Governor Luis M. Linde reviewed bilateral relations between the two institutions and ways to further reinforce cooperation ties in areas relating to their respective missions.
