

**PRESS RELEASE**

Madrid, 16 April 2018

**Banco de España is discontinuing publication of the *Boletín* and the *Memoria del Mercado de Deuda Pública* (Public Debt Market Bulletin and Annual Report)**

The Banco de España is discontinuing publication of the *Boletín del Mercado de Deuda Pública* (Public Debt Market Bulletin) and the *Memoria del Mercado de Deuda Pública* (Public Debt Market Annual Report) on its website as from today, Monday 16 April 2018. In its place, the market operator of the AIAF Fixed-Income Market (Bolsas y Mercados Españoles Renta Fija, S.A.) will be assuming the task of disseminating information on public debt securities.

As a consequence of the entry into force of the new Community regulations on securities markets (MIFID II and MIFIR), securities issued by the Spanish Treasury have been recorded and traded on the AIAF Fixed-Income Market since the start of 2018. All Treasury issues prior to that date are also traded on this market. Further to these changes, AIAF has assumed the role of benchmark market for Spanish public debt, replacing the Book-Entry Public Debt Market. Accordingly, it is consistent that it should also take charge of the regular dissemination of this information.

The Banco de España is likewise ceasing publication of the *Boletín de Operaciones* (Operations Bulletin), whose informativeness has become redundant or of limited relevance.

To smooth these changes, the Banco de España website section where these publications were featured to date will include a [link to the new information source](#).
