

PRESS RELEASE
Madrid, 8 July 2019

The Banco de España publishes the “Guide to Historical Banking Archives in Spain”

The Banco de España has recently published the “Guide to Historical Banking Archives in Spain”. The guide promotes the recovery of Spanish banking archives and offers readers the “Bank and savings bank map”, which documents the history of all banking concentration processes.

Researchers, students and any person interested in this subject can gain access to information that was hitherto lacking: a detailed list of the main Spanish banking archives and of the developments in the Spanish banking system throughout the 20th century. The transformation of the banking industry last century, the numerous different players involved in the changes and the documentary series making up the most representative Spanish banking archives are now available to all.

This initiative, which seeks to protect and disseminate the historical legacy of our financial system, has benefited from the collaboration of the representatives of the main Spanish banks.
