

Chile, August

Aim and content

The aim of the seminar is to address themes relating to assets and financial liabilities and credit losses, under the International Financial Reporting Standards (IFRS), and considerations regarding the capital and financial result of central banks.

The content will cover: fundamental issues in the adoption of best practices for a financial-accounting framework; accounting valuation challenges; and changes introduced by the International Financial Reporting Standards and other international accounting standards.

Professional profile of participants

Officials of central banks and financial supervision authorities interested in expanding their knowledge for the development, application and monitoring of a financial-accounting framework.

Organisation and format

The seminar is co-organised by CEMLA, the Banco de España, the Central Bank of Chile and ASBA.

Participation is by invitation only.
