## NOTES TO THE TABLES OF CHAPTER 8

### Table 8.C

- a. Source: CNMV. The monthly time series of the main items are published on the Banco de España website at [www.bde.es](http://www.bde.es), tables of the Boletín Estadístico, tables 8.91 and 8.92.

### Table 8.1

- a. See breakdown in tables 8.2 and 8.3.  
b. See breakdown in tables 8.41 to 8.44.  
c. See breakdown in tables 8.51 to 8.54.  
d. See breakdown in tables 8.81 to 8.84.  
e. See breakdown in tables 8.91 and 8.92.

### Table 8.2

- a. See breakdown in table 8.4.  
b. See breakdown in table 8.6.  
c. See breakdown in table 8.12.

### Table 8.3

- a. This column coincides with the sum of column 1, table 8.8 and column 11, table 8.91.  
b. This column coincides with the sum of column 1, table 8.10 and column 12, table 8.91.  
c. This column coincides with the sum of column 1, table 8.13 and column 13, table 8.91.  
d. See breakdown in table 8.13.  
e. This column coincides with the sum of column 1, table 8.8, column 1, table 8.10 and column 1, table 8.13.  
f. The breakdown by holder is shown in table 8.91, columns 11 to 13.  
g. This column coincides with the sum of column 2, table 8.8, column 2, table 8.10 and columns 2 and 11, table 8.13.

### Table 8.4

- a. See breakdown in table 8.21.  
b. See breakdown in table 8.22.

### Table 8.6

- a. See breakdown in table 8.7.

### Table 8.8

- a. See breakdown in tables 8.21 and 8.25.  
b. See breakdown in tables 8.9, 8.22 and 8.28.

### Table 8.10

- a. See breakdown in table 8.11.

### Table 8.13

- a. Until December 1998 the amount of repo sales is included in column 3.

### Table 8.21

- a. See breakdown in table 8.25.

### Table 8.22

- a. See breakdown in tables 8.26 and 8.28.

### Table 8.26

- a. Apart from institutional differences (see sectorisation scheme) and the categorisation of loans, this column coincides with column 1 of table 4.13.  
b. In addition to the clarifications included in the foregoing note, it should be borne in mind that this total includes all loans and credits granted to households by OMFI's, while column 3 of table 4.13 does not include those earmarked for financing sole proprietors' productive activities. The latter are in column 2 of table 4.13 (along with those financing the productive activities of both financial and non-financial corporations), and separately in column 6 of table 8.27.  
c. This column coincides with column 4 of table 4.13 and with column 15 of table 8.27, and is detailed in columns 2-4 and 10 of table 8.27.  
d. This column coincides with the sum of columns 6 and 14 of table 8.27.

**Table 8.27**

- a. This total coincides with column 6 of table 8.26. This series is available monthly in csv files.
- b. These columns correspond to columns 6-7 of table 4.13.
- c. This column coincides with column 13 of table 4.13.
- d. This column coincides with column 8 of table 4.13.
- e. This series is available monthly in csv files.
- f. This column coincides with column 9 of table 4.13.
- g. This column coincides with column 4 of table 4.13 and with column 7 of table 8.26. This series is available monthly in csv files.

**Table 8.29**

- a. More than 3 months.

**Table 8.30**

- a. More than 3 months.

**Table 8.41**

- a. See breakdown in table 8.43.

**Table 8.42**

- a. See breakdown in table 8.44.

**Table 8.E**

- a. The euro area minimum reserves system entered into force in early January 1999. This appendix to table 8.C aims to describe the conceptual scope of the system, which is based on the information collected from the monthly balance sheets of the Credit Institutions. These institutions are featured in table 8.C column b.
- b. Any discrepancy between the data in column 2 and the sum of the codes shown in the column of items is due to the lag between the updating of the balance sheets (table 8.C) and tables of time series and the updating of the reserve base (table 8.45).

**Table 8.51**

- a. See breakdown in table 8.53.

**Table 8.52**

- a. See breakdown in table 8.54.

**Table 8.81**

- a. See breakdown in table 8.83.

**Table 8.82**

- a. See breakdown in table 8.84.

**Table 8.F**

- a. As at 31 December 1997, there are 106 MMF.
- b. As at 31 December 1998, 136 MMF are included in the list approved and disseminated (in April 1998) by the ECB.
- c. From January 1999, all FIAMM are MMF.

**Table 8.91**

- a. Until 31/12/97, 107 FIAMM were classified as MMF. From 1/1/98 until 31/12/98, 136 FIAMM were classified as MMF. Since 1/1/99, all FIAMM have been classified as MMF.
- b. Another table contains the breakdown of this column.

CHAPTER 9 NON-MONETARY FINANCIAL INSTITUTIONS, EXCEPT INSURANCE CORPORATIONS  
AND PENSION FUNDS

# 9. NON-MONETARY FINANCIAL INSTITUTIONS (a)(b)

# 9.A Assets

## A) Total sector

## Reconciliation between the financial balance sheets according to FASE and the official balance sheets

Data related to September 2008

(a) Except insurance corporations and pension funds

(b) Due to the peculiarities of these financial intermediaries it should be taken into account that the Non-Monetary Financial institutions that are showed in this table are those for which, at the moment of the edition of this publication, information is available in the statistical registers of the Banco de España.

(c) Related to column 8, Total FASE.

(d) When information of some of the institutions included in the grouping is not available and figures can be estimated, data has been included in the aggregates. Counterpart sector breakdowns of the balance-sheet items have been obtained in the same way (see tables 9.C and 9.F).

(e) These institutions are Others Financial Intermediaries because Monetary Financial Intermediaries (chapters 6 to 8) are, obviously, the Financial Intermediaries par excellence (see the sectorisation scheme showed in this Boletín Estadístico).

(f) FASE: Financial Accounts of the Spanish Economy.

**9. NON-MONETARY FINANCIAL INSTITUTIONS (a)(b)**
**9.B Liabilities**
**A) Total sector**
**Reconciliation between the financial balance sheets according to FASE and the official balance sheets**

(a) Except insurance corporations and pension funds

(b) Due to the peculiarities of these financial intermediaries it should be taken into account that the Non-Monetary Financial institutions that are showed in this table are those for which, at the moment of the edition of this publication, information is available in the statistical registers of the Banco de España.

(c) Related to column 8, Total FASE.

(d) When information of some of the institutions included in the grouping is not available and figures can be estimated, data has been included in the aggregates. Counterpart sector breakdowns of the balance-sheet items have been obtained in the same way (see tables 91.A and 92.A).

(e) These institutions are Others Financial Intermediaries because Monetary Financial Intermediaries (chapters 6 to 8) are, obviously, the Financial Intermediaries par excellence (see the sectorisation scheme showed in this Boletín Estadístico).

(f) FASE: Financial Accounts of the Spanish Economy.

(a) Except insurance corporations and pension funds

(b) Due to the peculiarities of these Financial intermediaries it should be taken into account that the Non-Monetary financial institutions that are showed in this table are those for which, at the moment of the edition of this publication, information is available in the statistical registers of the Banco de España.

(c) These institutions are Other financial intermediaries because Monetary financial intermediaries (chapter 6 to 8) are, obviously, the Financial intermediaries per excellence (see the sectorisation scheme showed in the Boletín Estadístico).

(d) Related Total FASE.

## 9. NON-MONETARY FINANCIAL INSTITUTIONS (a)(b)

## B) Other financial intermediaries (c)

## Reconciliation between the financial balance sheets according to FASE and the official balance sheets

(a) Except insurance corporations and pension funds.

(b) Due to the peculiarities of these financial intermediaries it should be taken into account that the Non-Monetary Financial institutions that are showed in this table are those for which, at the moment of the edition of this publication, information is available in the statistical registers of the Banco de España.

(c) These institutions are Others Financial Intermediaries because Monetary Financial Intermediaries (chapters 6 to 8) are, obviously, the Financial Intermediaries par excellence (see the sectorisation scheme showed in this Boletín Estadístico).

(a) Except insurance corporations and pension funds.

(b) Due to the peculiarities of these financial intermediaries it should be taken into account that the Non-monetary financial institutions that are showed in this table are those for which, at the moment of the edition of this publication, information is available in the statistical registers of the Banco de España.

(c) Related Total FASE.

(d) When information of some of the institutions included in the grouping is not available and figures can be estimated, data has been included in the aggregates. Counterpart sector breakdowns of the balance-sheet items have been obtained in the same way (see tables 91.A and 92.A).

(e) Estimated data.

(f) Entities that only realize pension funds management activities.

(g) Law 44/2002 has suppressed this organism and its functions have been assumed by the Consorcio de Compensación de Seguros.

## NOTES TO THE TABLES OF CHAPTER 9

### Overview

These tables, which are only available in the electronic edition of the Boletín Estadístico, contain information of the activity and financial statements of appraisal companies. The scope of this information is limited to the data compiled by the Banco de España in accordance with CBE 3/1998 of 27 January 1998 (amended by CBE 5/2003).

The tables contain information, broken down by appraised assets, on the number of appraisals (Table 9.50), on the amount of appraisals (Table 9.51) and on the appraised usable area of properties (Table 9.52). This information has been used to obtain the series on average value of appraised square metre (Table 9.53), which should not be interpreted as a reference price per unit of area, given the heterogeneity of the appraised properties included in the various aggregates. Nor can it be considered an accurate indicator of price behaviour, since it is not based on a homogeneous sample over time of appraised properties. Tables 9.54 and 9.55 give the number and amount of appraisals by type of customer and purpose of appraisal and Tables 9.56 to 9.61 contain a geographical breakdown. Finally, information is provided on the balance sheets (Table 9.62) and profit and loss accounts of appraisal companies (Table 9.63).

### Notes on Tables 9.50 to 9.63

#### Tables 9.50, 9.51 and 9.52

- a. Buildings are classified according to their main use, based on the area devoted to each use. Since 1998 buildings under construction are included only at the value of the finished building. Intermediate appraisals are included only under the related heading in memorandum items.
- b. Non-buildable land, excluding that relating to an economic activity permitted under current legislation and that included in rural property. See Note (c).
- c. Refers to any building or part thereof relating to an economic activity or business operation: hotels, residences, hospitals, industrial facilities, transport centres, community facilities, etc.
- d. Including urban development works, etc. Until 2003 includes non-buildable land.
- e. Intangible assets, companies, machinery, fixtures, other physical assets, goodwill, options and other assets.
- f. Includes those less than two years old, except when they must appear as new appraisals because of a significant change in the appraised asset. Until 1997, inclusive, this heading included intermediate appraisals.
- g. Intermediate appraisals must include the net increments in value of the certificates issued after the initial appraisal or during the construction or rehabilitation of a building.
- h. Irrespective of whether the various buildings or parts thereof are included under the relevant headings.

#### Table 9.53

- a. The property items whose average values are of most significance or interest have been selected. The full information available for calculating the average values is given in Tables 9.51 and 9.52.

#### Table 9.56

- a. The detail by Regional (Autonomous) Government is given in Table 9.58.
- b. The detail by Regional (Autonomous) Government is given in Table 9.59.

#### Table 9.57

- a. The detail by Regional (Autonomous) Government is given in Table 9.60.
- b. The detail by Regional (Autonomous) Government is given in Table 9.61.

#### Table 9.58

- a. The total is given in column 2 of Table 9.56.
- b. Includes Ceuta and Melilla.

#### Table 9.59

- a. The total is given in column 9 of Table 9.56.
- b. Includes Ceuta and Melilla.

#### Table 9.60

- a. The total is given in column 2 of Table 9.57.
- b. Includes Ceuta and Melilla.

#### Table 9.61

- a. The total is given in column 9 of Table 9.57.
- b. Includes Ceuta and Melilla.

**Table 9.62**

a. Number of institutions sending information on their activity and financial statements.

**Table 9.63**

a. Gains or losses on financial transactions include, in addition to financial revenue and expenses, the following income statement captions: Change in fair value of financial instruments, Exchange differences and Impairment and gains (losses) on disposal of financial instruments.

## CHAPTER 10 INSURANCE CORPORATIONS AND PENSION FUNDS

## 10. INSURANCE CORPORATIONS AND PENSIONS FUNDS

## 10.A Reconciliation between the financial balancesheet of the FASE and the accounting balance sheet. Assets

## NOTES TO THE TABLES OF CHAPTER 11: GENERAL GOVERNMENT

### Table 11.1

a. The differences between the net lending (+) or net borrowing (-) of the Spanish National Accounts and according to the EDP arise from the inclusion in the non-financial transactions account of interest rate swaps, in accordance with Regulation (EC) No 2558/2001 of 3 December 2001, so that the profits (losses) on swaps transactions reduce (increase) interest. In the National Accounts, interest rate swaps are considered to be a financial transaction.

b. A positive (negative) sign indicates that general government has obtained profits (losses) in respect of this item.

c. Liabilities issued by general government and held by other general government units, other accounts payable and adjustments for differences between the market value and the nominal value of the liabilities net incurrence of shares and other equity (PF.5), as well as other adjustments resulting from the reclassification of institutional units and other changes in the information.

d. The figures for GDP at market prices are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date.

Note: Any discrepancies between the data in this table and in Table 2.9 are due to revisions made after the submission of the EDP notification to the European Commission.

### Table 11.2

Note: The quarterly percentages are calculated: 1) When the GDP for the four quarters of the year in question is available, using the GDP for that year; 2) when the GDP for the four quarters of the year in question is not available, using the annual GDP obtained by aggregating the quarterly GDP figures for the last four quarters.

See notes to Table 11.1.

### Table 11.3

See notes to Table 11.1.

### Table 11.4

See notes to Table 11.2

### Table 11.5

See notes to Table 11.1

### Table 11.6

See notes to Table 11.2

### Table 11.7

a. General government EDP debt does not include financial assets/liabilities incurred by general government and held by other general government units (columns 3, 6, 9 and 12).

b. Financing by the Autonomous Region Liquidity Fund (FLA), payments made to creditors on behalf of the Regional (autonomous) Government and Local Governments by the Fund for the Payment of Creditors (FFPP) and Social Security loan.

c. Debt issued by the State held by the Fondo de Garantía Salarial (FOGASA), the Mutua de Accidentes de Trabajo y Enfermedades Profesionales and the Fondo de Prevención y Rehabilitación.

### Table 11.8

Note: The quarterly percentages are calculated: 1) When the GDP for the four quarters of the year in question is available, using the GDP for that year; 2) when the GDP for the four quarters of the year in question is not available, using the annual GDP obtained by aggregating the quarterly GDP figures for the last four quarters.

See notes to Table 11.7.

### Table 11.9

a. Annual change in column 11 of Table 11.1.

b. Column 3 of Table 11.1 with the opposite sign.

c. A positive figure means that this item increases debt and a negative figure means that it decreases debt.

d. Breakdown of column in Table 11.11.

e. Includes effects such as those produced by the reclassification of institutional units or financial items.

f. Includes adjustments for interest accrued less interest paid, for issue or redemption premiums, for the difference between the nominal and cash amount of discounted issues, for capital losses or gains arising from early payment of liabilities, for discrepancies between the net lending (+) or net borrowing (-) and net financial transactions and net incurrence of shares and other equity (PF.5).

**Table 11.10**

Note: The quarterly percentages are calculated: 1) When the GDP for the four quarters of the year in question is available, using the GDP for that year; 2) when the GDP for the four quarters of the year in question is not available, using the annual GDP obtained by aggregating the quarterly GDP figures for the last four quarters.

See notes to Table 11.9.

**Table 11.12**

a. Already deducted from columns 3 to 9.

Note: Any discrepancies between the data in this table and in Table 2.9 are due to revisions made after the submission of the EDP notification to the European Commission.

**Table 11.13**

Note: Any discrepancies between the data in this table and in Table 2.9 are due to revisions made after the submission of the EDP notification to the European Commission.

**Table 11.14**

a. The units included here as public enterprises are the main non-administrative agencies, entities and enterprises not classified under regional (autonomous) government.

b. The figures for GDP at market prices are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date.

**Table 11.15**

a. As a result of the reform of the Common Agricultural Policy (CAP) in 2004 (Council Regulation (EC) No 1782/2003 and subsequent provisions), and pursuant to Council Regulation (EC) 1290/2005, two new European agricultural funds have been created, the European Agricultural Guarantee Fund (EAGF) and the European Agricultural Fund for Rural Development (EAFRD). These funds replace the two sections of the former European Agricultural Guidance and Guarantee Fund (EAGGF): Guarantee and Guidance.

b. Likewise, pursuant to Council Regulation (EC) No 1198/2006, the Financial Instrument for Fisheries Guidance (FIFG) has been replaced by the European Fisheries Fund (EFF).

## CHAPTER 12 CENTRAL GOVERNMENT AND SOCIAL SECURITY FUNDS

## 12. CENTRAL GOVERNMENT

### 12.1 Net lending (+) or net borrowing (-), liabilities outstanding and debt according to the excessive deficit procedure (EDP). Amounts

Net lending (+) or net borrowing (-): INE and IGAE. GDP mp: INE.

EUR millions

See notes at the end of the chapter.

## NOTES TO THE TABLES OF CHAPTER 12

### Table 12.1

- a. The differences between the net lending (+) or net borrowing (-) of the Spanish National Accounts and according to the EDP arise from the inclusion in the non-financial transactions account of interest rate swaps, in accordance with Regulation (EC) No 2558/2001 of 3 December 2001, so that the profits (losses) on swaps transactions reduce (increase) interest. In the National Accounts, interest rate swaps are considered to be a financial transaction.
- b. A positive (negative) sign indicates that central government has obtained profits (losses) in respect of this item.
- c. Liabilities issued by central government and held by other central government units, other accounts payable and adjustments for differences between the market value and the nominal value of the liabilities net incurrence of shares and other equity (PF.5), as well as other adjustments resulting from the reclassification of institutional units and other changes in the information.
- d. The figures for GDP at market prices are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date.

### Table 12.2

Note: The quarterly percentages are calculated: 1) When the GDP for the four quarters of the year in question is available, using the GDP for that year; 2) when the GDP for the four quarters of the year in question is not available, using the annual GDP obtained by aggregating the quarterly GDP figures for the last four quarters.  
See notes to Table 12.1.

### Table 12.3

- a. Annual change in column 11 of Table 12.1.
- b. Column 3 of Table 12.1 with the opposite sign.
- c. A positive figure means that this item increases debt and a negative figure means that it decreases debt.
- d. Breakdown of column in Table 12.5.
- e. Includes effects such as those produced by the reclassification of institutional units or financial instruments.
- f. Includes adjustments for interest accrued less interest paid, for issue or redemption premiums, for the difference between the nominal and cash amount of discounted issues, for capital losses or gains arising from early payment of liabilities and net incurrence of shares and other equity (PF.5).

### Table 12.4

See notes to Table 12.3

### Table 12.6

- a. Breakdowns of securities other than shares by instrument and of issues denominated in euro and in other currencies are given in Tables 21.12, 21.13 and 21.15. The difference between column 4 of this table 'Total securities other than shares' and column 1 of Table 21.12 'Total securities other than shares, except financial derivatives' arises from the fact that debt according to the methodology of the excessive deficit protocol excludes the securities held by other general government units and takes currency swaps into account.
- b. Not deducted from column 1.

### Table 12.10

- a. The units included here as public enterprises are the main non-administrative agencies, entities and enterprises not classified under central government. For ease of comparison with the central government debt shown in this chapter, the debt of public enterprises shown in this table has been calculated using the EDP methodology. The debt of public enterprises does not fall within the scope of the EDP and, therefore, unlike the debt of general government (public debt), it is not included in the notifications sent to the European Commission.
- b. As a consequence of the reallocation of assets and liabilities prompted by RDL 7/2004 of 27 September 2004, between November and December 2004, an amount of €5,458 million that formed part of the debt of RENFE was assumed by the State.
- c. Law 39/2003 on the railway industry of 17 November 2003 reorganised the state railway industry, the management of the railway infrastructure (which was previously entrusted to RENFE and GIF) being entrusted to ADIF. Also RENFE-Operadora was set up, as a company providing railway transport services. This company assumed the resources and assets previously assigned by RENFE to the provision of railway services.

### Table 12.11

- a. The differences between the net lending (+) or net borrowing (-) of the Spanish National Accounts and according to the EDP arise from the inclusion in the non-financial transactions account of interest rate swaps, in accordance with Regulation (EC) No 2558/2001 of 3 December 2001, so that the profits (losses) on swaps transactions reduce (increase) interest. In the National Accounts, interest rate swaps are considered to be a financial transaction.
- b. A positive (negative) sign indicates that social security funds have obtained profits (losses) in respect of this item.

c. Liabilities issued by social security funds and held by other social security funds, other accounts payable and adjustments for differences between the market value and the nominal value of the liabilities net incurrence of shares and other equity (PF.5), as well as other adjustments resulting from the reclassification of institutional units and other changes in the information.

d. The figures for GDP at market prices are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date.

**Table 12.12**

Note: The quarterly percentages are calculated: 1) When the GDP for the four quarters of the year in question is available, using the GDP for that year; 2) when the GDP for the four quarters of the year in question is not available, using the annual GDP obtained by aggregating the quarterly GDP figures for the last four quarters.

See notes to Table 12.11.

**Table 12.13**

a. Annual change in column 11 of Table 12.11.

b. Column 3 of Table 12.11 with the opposite sign.

c. A positive figure means that this item increases debt and a negative figure means that it decreases debt.

d. Breakdown of column in Table 12.15.

e. Includes effects such as those produced by the reclassification of institutional units or financial instruments.

f. Includes adjustments for interest accrued less interest paid, for issue or redemption premiums, for the difference between the nominal and cash amount of discounted issues, for capital losses or gains arising from early payment of liabilities and net incurrence of shares and other equity (PF.5).

**Table 12.14**

See notes to Table 12.13.

**Table 12.16**

a. Not deducted from column 1.

## CHAPTER 13 REGIONAL AUTONOMOUS GOVERNMENTS

### 13. REGIONAL (AUTONOMOUS) GOVERNMENTS

#### 13.1 Net lending (+) or net borrowing (-), liabilities outstanding and debt according to the excessive deficit procedure (EDP). Amounts

Net lending (+) or net borrowing (-): INE and IGAE. GDP mp: INE.

EUR millions

| Net lending(+) or net borrowing(-) (a)           |                                    |                      |                                                                                    | Liabilities outstanding and debt according to the EDP                                        |                                                                                             |                        |                                        |        |                                 |                           | Memorandum item: GDP mp (d) |           |
|--------------------------------------------------|------------------------------------|----------------------|------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|------------------------|----------------------------------------|--------|---------------------------------|---------------------------|-----------------------------|-----------|
| According to the Spanish National Accounts (CNE) | Interest rate swaps adjustment (b) | According to the EDP | Liabilities outstanding according to the Financial Accounts of the Spanish Economy | Adjustments for liabilities not included in EDP debt and valuation and other adjustments (c) |                                                                                             |                        |                                        |        |                                 | Debt according to the EDP |                             |           |

## NOTES TO THE TABLES OF CHAPTER 13: REGIONAL (AUTONOMOUS) GOVERNMENTS

### Table 13.1

- a. The differences between the net lending (+) or net borrowing (-) of the Spanish National Accounts and according to the EDP arise from the inclusion in the non-financial transactions account of interest rate swaps, in accordance with Regulation (EC) No 2558/2001 of 3 December 2001, so that the profits (losses) on swaps transactions reduce (increase) interest. In the National Accounts, interest rate swaps are considered to be a financial transaction.
- b. A positive (negative) sign indicates that regional (autonomous) governments have obtained profits (losses) in respect of this item.
- c. Liabilities issued by Regional (autonomous) Governments and held by other Regional (autonomous) Governments, other accounts payable and adjustments for differences between the market value and the nominal value of the liabilities net incurrence of shares and other equity (PF.5), as well as other adjustments resulting from the reclassification of institutional units and other changes in the information.
- d. The figures for GDP at market prices are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date.

### Table 13.2

Note: The quarterly percentages are calculated: 1) When the GDP for the four quarters of the year in question is available, using the GDP for that year; 2) when the GDP for the four quarters of the year in question is not available, using the annual GDP obtained by aggregating the quarterly GDP figures for the last four quarters.  
See notes to Table 13.1.

### Table 13.3

- a. Annual change in column 11 of Table 13.1.
- b. Column 3 of Table 13.1 with the opposite sign.
- c. A positive figure means that this item increases debt and a negative figure means that it decreases debt.
- d. Breakdown of column in Table 13.5.
- e. Includes effects such as those produced by the reclassification of institutional units or financial instruments.
- f. Includes adjustments for interest accrued less interest paid, for issue or redemption premiums, for the difference between the nominal and cash amount of discounted issues, for capital losses or gains arising from early payment of liabilities and net incurrence of shares and other equity (PF.5).

### Table 13.4

See notes to Table 13.3.

### Table 13.7

- a. A breakdown of issues into those denominated in euro and those denominated in currencies other than the euro is given in Table 21.18. The difference between column 3 of this table, 'total debt securities issued' and column 1 of table 21.18 'total debt securities issued excluding financial derivatives' arises from the fact that debt according to the methodology of the excessive deficit procedure takes into account the currency swaps carried out by the various regional (autonomous) governments.

### Table 13.8

- a. Includes the governing bodies of the regional (autonomous) governments.
- b. The figures for GDP at market prices are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date.

### Table 13.9

- a. Each regional (autonomous) government includes the units concerned with the general administration of the region, the universities located within its territory and those bodies and enterprises reporting to the regional (autonomous) government that are classified under general government. The Autonomous Cities of Ceuta and Melilla are classified in subsector Local Governments of the national accounting system.
- b. The provincial councils of the Basque Country are classified in subsector Local Governments of the national accounting system. Table 14.8, column 16, provides information about the debt of the provincial councils of the Basque Country.

### Table 13.10

- c. The figures for GDP at market prices used for the total are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date. For the individual regional (autonomous) governments, until 2008, the regional GDP mp published in the Spanish Regional Accounts (CRE) of the INE has been used for the years the information was available. For the rest of years, the structure of the last regional GDP mp figure published by the INE has been applied to the national GDP mp.  
See notes to Table 13.9.

**Table 13.11**

a. The units included here as public enterprises are the main non-administrative agencies, entities and enterprises of the regional (autonomous) governments, which are classified as Public Administration. For ease of comparison with the general government debt shown in the previous tables (which is public debt, as narrowly defined), the debt of public enterprises shown in this table has been calculated using EDP methodology. The debt of public enterprises does not fall within the scope of the EDP, and therefore, unlike the debt of general government (public debt), it is not included in the notifications sent to the European Commission.

**Table 13.12**

b. The figures for GDP at market prices used for the total are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date. For the individual regional (autonomous) governments, until 2008, the regional GDP mp published in the Spanish Regional Accounts (CRE) of the INE has been used for the years the information was available. For the rest of the years, the structure of the last regional GDP mp figure published by the INE has been applied to the national GDP mp. See notes to Table 13.11.

## CHAPTER 14 LOCAL GOVERNMENTS

## 14. LOCAL GOVERNMENTS

### 14.1 Net lending (+) or net borrowing (-), liabilities outstanding and debt according to the excessive deficit procedure (EDP). Amounts

Net lending (+) or net borrowing (-): INE and IGAE. GDP mp: INE.

EUR millions

| Net lending(+) or net borrowing(-) (a)           |                                    |                      |                                                                                    | Liabilities outstanding and debt according to the EDP                                        |                                                             |                        |                                        |       |                                 |                           | Memorandum item: GDP mp (d) |           |
|--------------------------------------------------|------------------------------------|----------------------|------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------|-------------------------------------------------------------|------------------------|----------------------------------------|-------|---------------------------------|---------------------------|-----------------------------|-----------|
| According to the Spanish National Accounts (CNE) | Interest rate swaps adjustment (b) | According to the EDP | Liabilities outstanding according to the Financial Accounts of the Spanish Economy | Adjustments for liabilities not included in EDP debt and valuation and other adjustments (c) |                                                             |                        |                                        |       |                                 | Debt according to the EDP |                             |           |
|                                                  |                                    |                      |                                                                                    | Total                                                                                        | Local governments' EDP debt held by other local governments | Other accounts payable |                                        |       | Valuation and other adjustments |                           |                             |           |
|                                                  |                                    |                      |                                                                                    |                                                                                              |                                                             | Total                  | Held by other general government units | Rest  |                                 |                           |                             |           |

## NOTES TO THE TABLES OF CHAPTER 14

### Table 14.1

- a. The differences between the net lending (+) or net borrowing (-) of the Spanish National Accounts and according to the EDP arise from the inclusion in the non-financial transactions account of interest rate swaps, in accordance with Regulation (EC) No 2558/2001 of 3 December 2001, so that the profits (losses) on swaps transactions reduce (increase) interest. In the National Accounts, interest rate swaps are considered to be a financial transaction.
- b. A positive (negative) sign indicates that Local Governments have obtained profits (losses) in respect of this item.
- c. Liabilities issued by Local Governments and held by other Local Governments, other accounts payable and adjustments for differences between the market value and the nominal value of the liabilities net incurrence of shares and other equity (PF.5), as well as other adjustments resulting from the reclassification of institutional units and other changes in the information.
- d. The figures for GDP at market prices are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date.

### Table 14.2

Note: The quarterly percentages are calculated: 1) When the GDP for the four quarters of the year in question is available, using the GDP for that year; 2) when the GDP for the four quarters of the year in question is not available, using the annual GDP obtained by aggregating the quarterly GDP figures for the last four quarters.  
See notes to Table 14.1.

### Table 14.3

- a. Annual change in column 11 of Table 14.1.
- b. Column 3 of Table 13.1 with the opposite sign.
- c. A positive figure means that this item increases debt and a negative figure means that it decreases debt.
- d. Breakdown of column in Table 14.5.
- e. Includes effects such as those produced by the reclassification of institutional units or financial instruments.
- f. Includes adjustments for interest accrued less interest paid, for issue or redemption premiums, for the difference between the nominal and cash amount of discounted issues, for capital losses or gains arising from early payment of liabilities and net incurrence of shares and other equity (PF.5).

### Table 14.4

See notes to Table 14.3.

### Table 14.7

- a. A breakdown of issues into those denominated in euro and those denominated in currencies other than the euro is given in Table 21.18.

### Table 14.8

- a. Classified under local government are the municipal, ordinary-regime and specific-status provincial and island authorities, municipal groupings, and those bodies and enterprises subordinate to local government that are classified under general government.
- b. The figures for GDP at market prices are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date.

CHAPTER 15 NON FINANCIAL CORPORATIONS: SUMMARY INFORMATION COMPILED BY THE  
CENTRAL BALANCE SHEET DATA OFFICE

**15 NON-FINANCIAL CORPORATIONS:**  
Summary information compiled by the Central Balance Sheet Data Office

**15.A All spanish non-financial corporations and those covered by the databases of the Central Balance Sheet Office (CB).**

December 2011 data (2014 March update)

Number of corporations

|                                                                             | TOTAL                                          |                            | Corporations with up to 50 employees           |                                                  |                                                                       |                                                | Corporations with over 50 employees              |                                                                       |       |                                                     | Memorandum item |

See notes at the end of the chapter.

## NOTES TO THE TABLES OF CHAPTER 15

### Table 15.A

a. Owing to the unavailability of the appropriate population estimator, the data for the agriculture, livestock, forestry and fisheries sectors in column 2 are not extrapolated to obtain the totals for the balance sheet and profit and loss account in Table 15.C.

### Table 15.B

a. Owing to the unavailability of the appropriate population estimator, the data for the agriculture, livestock, forestry and fisheries sectors in column 2 are not extrapolated to obtain the totals for the balance sheet and profit and loss account in Table 15.C.

### Table 15.C

a. Definition of the ratios:

$$R1 = [(27+29)/(10-14-17)]*100$$

$$R2 = [27/(13+16)]*100$$

$$R3 = (29/11)*100$$

$$R4 = R1 - R2$$

$$R5 = (24/18)*100$$

$$E1 = [(13+16)/(10-14-17)]*100$$

$$E1' = [(13+16)/(10-14-17-4)]*100$$

$$E2 = (13+16)/(24+25)*100$$

$$\text{Interest burden} = [27/(24+25)]*100$$

Note: Ratios FSI.1 and FSI.2nd have been prepared in accordance with the methodology defined by the IMF in its document Financial Soundness Indicator. Compilation Guide.

### Table 15.3

a. The quarterly series of year n for quarter t includes the rates of the cumulative data for year n up to quarter t, compared with the same period a year earlier.

### Table 15.6

a. The quarterly series of year n for quarter t includes the rates of the cumulative data for year n up to quarter t, compared with the same period a year earlier.

### Table 15.7

a. The ratios are defined in Table 15.C.

### Table 15.8

a. The ratios are defined in Table 15.C.

b. The ordinary net profit (ONP) used to calculate this ratio includes, for each quarter, the proportional part of the dividends received up to that quarter from the beginning of the year, determined on a straight-line basis; the ratio of Table 15.9 provides cumulative information for each period (Q1, Q1-Q2, Q1-Q3, Q1-Q4) in which the total dividend received is included.

### Table 15.9

a. The quarterly series of year n for quarter t includes the ratios of the cumulative data for year n up to quarter t.

b. The ratios are defined in Table 15.C.

### Table 15.10

a. The ratios are defined in Table 15.C.

### Table 15.11

a. The ratios are defined in Table 15.C.

### Table 15.12

a. The quarterly series of year n for quarter t includes the ratios of the cumulative data for year n up to quarter t.

b. The ratios are defined in Table 15.C.

### Table 15.13

a. The ratios are defined in Table 15.C.

### Table 15.14

a. The ratios are defined in Table 15.C.

b. The ordinary net profit (ONP) used to calculate this ratio includes, for each quarter, the proportional part of the dividends received up to that quarter from the beginning of the year, determined on a straight-line basis; the ratio of Table 15.15 provides cumulative information for each period (Q1, Q1-Q2, Q1-Q3, Q1-Q4) in which the total dividend received is included.

**Table 15.15**

- a. The quarterly series of year n for quarter t includes the ratios of the cumulative data for year n up to quarter t.
- b. The ratios are defined in Table 15.C.

**Table 15.16**

- a. The ratios are defined in Table 15.C.

**Table 15.17**

- a. The ratios are defined in Table 15.C.
- b. The ordinary net profit (ONP) used to calculate this ratio includes, for each quarter, the proportional part of the dividends received up to that quarter from the beginning of the year, determined on a straight-line basis; the ratio of Table 15.18 provides cumulative information for each period (Q1, Q1-Q2, Q1-Q3, Q1-Q4) in which the total dividend received is included.

**Table 15.18**

- a. The quarterly series of year n for quarter t includes the ratios of the cumulative data for year n up to quarter t.
- b. The ratios are defined in Table 15.C.

**Table 15.19**

- a. The ratios are defined in Table 15.C.

**Table 15.20**

- a. The ratios are defined in Table 15.C.

**Table 15.21**

- a. The quarterly series of year n for quarter t includes the ratios of the cumulative data for year n up to quarter t.
- b. The ratios are defined in Table 15.C.

**Table 15.22**

Note: Figures are given for the two periods included in the database for each survey.

- a. The ratios are defined in Table 15.C.

**Table 15.23**

- a. The ratios are defined in Table 15.C.
- b. Columns t and t-1 in the annual frequency block refer to the fourth quarter of year t and the fourth quarter of year t-1. In the quarterly frequency block, columns t and t-1 contain the information of the quarter in question (t) and of that immediately preceding it (t-1), respectively.

**Table 15.24**

Note: Figures are given for the two periods included in the database for each survey.

- a. The ratios are defined in Table 15.C.

**Table 15.25**

- a. The ratios are defined in Table 15.C.
- b. Columns t and t-1 in the annual frequency block refer to the fourth quarter of year t and the fourth quarter of year t-1. In the quarterly frequency block, columns t and t-1 contain the information of the quarter in question (t) and of that immediately preceding it (t-1), respectively.

**Table 15.26**

Note: Figures are given for the two periods included in the database for each survey.

- a. The ratios are defined in Table 15.C.

**Table 15.27**

- a. The ratios are defined in Table 15.C.
- b. Columns t and t-1 in the annual frequency block refer to the fourth quarter of year t and the fourth quarter of year t-1. In the quarterly frequency block, columns t and t-1 contain the information of the quarter in question (t) and of that immediately preceding it (t-1), respectively.

**Table 15.28**

- a. Figures for 2010 and 2011, both for total and for different aggregates by sector and size, are obtained by applying the rate of change of the previous base to the current base.

b. Data from the last period is an estimate made from the latest quarterly information received in the quarterly survey of the Central balance sheet data office (CBQ).

**Table 15.29**

a. Figures for 2010 and 2011, both for total and for different aggregates by sector and size, are obtained by applying the rate of change of the previous base to the current base.

b. Data from the last period is an estimate made from the latest quarterly information received in the quarterly survey of the Central balance sheet data office (CBQ).

## CHAPTER 16 HOUSEHOLDS AND NPISH

CHAPTER 17 BALANCE OF PAYMENTS AND INTERNATIONAL INVESTMENT POSITION VIS-à-VIS  
OTHER EURO AREA COUNTRIES AND THE REST OF THE WORLD

17. BALANZA DE PAGOS Y POSICIÓN DE INVERSIÓN INTERNACIONAL

A) Balanza de pagos

17.A Resumen de recursos (ingresos y variación neta de pasivos)  
y empleos (pagos y variación neta de activos financieros)  
Cuenta corriente y Cuenta de capital

Datos referidos a Enero de 2014

Millones de euros
