Lending by purpose, tables 4.13, 4.14 and 4.17

As from the current edition of the Statistical Bulletin the structure of Tables 4.13, 4.14 and 4.17 has been changed to provide information on consumer lending and the related non-performing loans. For this purpose a column for consumer lending has been added and the column “Other”, which until now included all consumer loans other than loans for consumer durables, has been modified. The changes have been made with retroactive effect.

## NOTES TO THE TABLES OF CHAPTER 1. MAIN ECONOMIC INDICATORS OF THE EURO AREA

### Table 1.2. Saving, investment and financing

Source: ECB.

a. Non-consolidated data.

b. Including net acquisition of valuables and non produced assets.

### Table 1.6. EDP (Excessive Deficit Procedure) deficit of General Government

Sources: Eurostat and ECB.

a. The data correspond to ESA 2010.

### Table 1.7. EDP (Excessive Deficit Procedure) debt of General Government

Sources: Eurostat and ECB.

a. The data correspond to ESA 2010.

### Table 1.8. Aggregated and consolidated balance sheet and transactions (adjusted flows) of the euro area MFIs, including the Eurosystem

Sources: ECB and in-house calculations.

a. Also includes the counterpart of Central Government monetary transactions.

### Table 1.9. Euro area monetary aggregates and counterparts of M3. Summary

Sources: ECB and in-house calculations.

### Table 1.10. Euro area monetary aggregates and counterparts of M3. Consolidated balances. Original series

Source: ECB.

a. Data refer to the changing composition of the euro area.

b. Incorporates the adjustments made to certain instruments (shares in money market funds, money market instruments and securities other than shares issued with a maturity of up to two years), issued by MFIs resident in the euro area, in order to deduct that part of such issues which should not be included in M3 as it is held by non-residents. These adjustments, which it was not possible to make until 2001 owing to the limitations of the statistical sources, have been introduced in two stages and have entailed modification of the time series from January 1999, inclusive, onwards. In the first stage (May 2001), that part of the series corresponding to shares in money market funds was revised and in the second stage (October 2001), the part corresponding to all other instruments. For further details see Box 1 in the November 2001 issue of the ECB Monthly Bulletin.

For data as from the reference period June 2010, and henceforth, repo operations conducted through central counterparties (CCPs) are excluded from the M3 component "repurchase agreements", and reverse repo operations conducted through CCPs are excluded from the M3 counterpart position "loans to other euro area residents". These items are instead now included in the residual category "Net remaining".

c. Includes loans and securities.

### Table 1.11. Euro area monetary aggregates and counterparts of M3. Transactions (adjusted flows). Original series

Source: ECB.

a. Data refer to the changing composition of the euro area.

b. See note (b) to the table 1.10.

c. Includes loans and securities.

### Table 1.12. Euro area monetary aggregates and counterparts of M3. Consolidated balance-sheet and transactions (adjusted flows). Seasonally adjusted series

Source: ECB.

a. Data refer to the changing composition of the euro area.

b. For the details of the method used to calculate the seasonally adjusted series, see the ECB publication "Seasonal adjustment of monetary aggregates and HICP for the euro area", August 2000.

c. See note (b) to the table 1.10.

### Table 1.13. Contribution of the MFIs resident in Spain to the euro area monetary aggregates and counterparts of M3

Source: ECB.

a. Data refer to the changing composition of the euro area.

b. This table is a requirement of the IMF in connection with the Special Data Dissemination Standard (SDDS).

c. See note (b) to the table 1.10.

d. Includes loans and securities.

e. These aggregates exclude cash held by the public, which is included under the counterparts. Since January 2002, cash held by the public has been calculated by applying to the euro banknotes in circulation the percentage assigned by the Banco de España in accordance with Eurosystem accounting arrangements (see the footnote to the summary balance sheet at the end of this bulletin), plus coins in euro and banknotes and coins in pesetas not converted into euro, minus MFIs' holdings of cash. Since January 2003, banknotes and coins in pesetas not converted into euro have been excluded.

### Table 1.14. Euro area monetary aggregates and the contribution of MFIs resident in Spain to the aggregates

Sources: ECB and BE.

a. Data refer to the changing composition of the euro area.

b. Rates computed using transactions (adjusted flows).

c. The contribution of MFIs resident in Spain refers to the original unadjusted series.

- d. Includes loans and securities.
- e. Rates calculated on the basis of contributions which exclude cash (see note (e) to Table 1.13).

**Table 1.15. Interest rates**

Source: ECB.

- a. With the exception of the overnight rate to December 1998, monthly and yearly values are period averages.
- b. To December 1998, 3-year euro area yields are end-of-period values and 10-year yields are period averages. Thereafter, all yields are period averages.
- c. Before January 1999 synthetic euro area rates were calculated on the basis of national rates weighted by GDP.
- d. From January 1999, column 5 shows the euro overnight index average (EONIA); other euro area money market rates from January 1999 are euro interbank offered rates (EURIBOR).
- e. The annual percentage rate of charge is the weighted average rate across all maturities and equals the total cost of the loans. These total costs comprise an interest rate component and a component of other charges.
- f. Interest rates on loans up to EUR 1 million.

**Table 1.16. Exchange rates**

Source: ECB, Economic Bulletin, "Statistics", tables 2.8 and 2.9

- a. To December 1998, rates for the ECU (source BIS); from January 1999, rates for the euro.
- b. The effective exchange rates of the euro are ECB calculated indices based on weighted averages of bilateral euro exchange rates. A positive change denotes an appreciation of the euro. Weights are based on manufactured goods trade with the main trading partners and capture third-market effects. Real rate are calculated using consumer prices (CPI). For more detailed information on the calculation of effective exchange rates, see the section 2.8 general notes in the ECB's Economic Bulletin, which can be downloaded from the ECB's website ([www.ecb.europa.eu](http://www.ecb.europa.eu)).

## NOTES TO THE TABLES OF CHAPTER 4. CREDIT INSTITUTIONS AND CREDIT FINANCIAL INTERMEDIARIES

### General note

Chapter 4 of the *Statistical Bulletin* presents information on credit institutions plus CFIs and deposit-taking institutions (until May 1994). The basic source of this information is the individual confidential returns that credit institutions and CFIs submit to the Banco de España for supervisory purposes in relation to their activity in Spain, in accordance with the criteria and rules laid down in the Accounting Circular CBE 4/2017 and prior provisions.

The information in Chapter 8 (also relates to credit institutions and CFIs. The difference between these two sets of data arises from the fact that they are compiled on the basis of different sources of information. Thus, while the data in this chapter are, as already mentioned, drawn from the financial statements credit institutions and CFIs send to the Banco de España for supervisory purposes, those of Chapter 8 are obtained from the accounting statements used to compile statistics for the euro area and, therefore, incorporate the conceptual framework common to all the countries that make up that area. There are certain differences in sectorisation and instrument valuation (see Table 4 and the notes thereto), but the structure of these two chapters means that they can be used to complement one other. Thus, while there is greater detail in this chapter on credit instruments (commercial, mortgage, etc.), deposits (sight, time, structured, etc.), capital accounts (capital, reserves, provisions, etc.) and other assets and liabilities (accruals, derivatives, etc.), the extra detail in Chapter 8 relates to counterpart sectors and residence, indicating whether the households or NPISHs, non-financial corporations and other financial intermediaries are resident in Spain, in other euro area countries or in the rest of the world (in which case, there is no information on the counterparty). Readers' attention is drawn to these details in order that they may benefit from the complementary information in these chapters.

### Table 4.A

- From January 2009 to April 2011 there may be small differences between total credit institutions plus CFI and the sum of deposit-taking institutions, SCIs and ICO. This is because in this period electronic money institutions were considered to be credit institutions and CFIs, but upon the entry into force of Directive 2009/110/EC of the European Parliament and of the Council, they ceased to be considered as such. Given the scant quantitative importance of these institutions, it was decided to retain their amount in the credit institution totals but it was not considered necessary to retain the breakdowns. The detail of this column is given in Tables 4.1 and 4.2. As from 2017 (March), the breakdown among Spanish institutions and foreign branches is removed.
- See details in Tables 4.51 and 4.52.
- See details in Tables 4.81 and 4.82.

### Table 4.1

- See the breakdown by subsector in Table 8.16. There are some small differences, owing to the fact that the tables use different definitions of credit and have been updated at different times.
- See breakdown by instrument in Table 4.3.
- See details in Table 4.4.
- See details in Table 4.6.
- See details in Table 4.99.
- Includes non-performing doubtful loans which are those in respect of which some amount of principal, interest or any other contractually agreed expense is more than three months past-due or exceeds 25% of total debt (unless these loans are specifically classified as written-off assets). It corresponds to the amount of column 14, Table 4.99.

### Table 4.2

- See the breakdown by subsector in Table 8.16. There are some small differences, owing to the different definition of deposits and the fact that the tables have been updated at different times.
- See breakdown by instrument in Table 4.5.
- See details in Table 4.7.
- See details in Table 4.8.

### Table 4.3

- The breakdown by institutional sector can be consulted in Table 8.17. There are some discrepancies between this amount and that in Table 8.26, owing to differences in the institutional scope and in the concept of credit and the fact that the tables have been updated at different times.
- Doubtful loans are loans in relation to which there is reasonable doubt regarding full repayment (of principal and interest) in accordance with the contractual terms. They include non-performing loans, which are those in respect of which some amount of principal, interest or contractually agreed expense is more than three months past-due. See details in Table 4.99. There may be differences between the amounts in these two tables, owing to the fact that they have been updated at different times.

### Table 4.4

- Short securities positions reflect the amount of the financial liabilities arising from the outright sale of financial assets acquired temporarily or received on loan. However, Table 4.4 shows short positions in the assets (columns 6 and 10) and deducts them from the total figures for "securities other than shares" of residents in Spain and in the rest of the world. Thus, columns 4 and 8 contain net figures and follow the same criterion as the returns the institutions submit for statistical purposes (and, therefore, the same criterion as Chapter 8 of this Bulletin), according to which short securities positions must be deducted from the item "securities other than shares" [see Rule 71. c) iii)].

### Table 4.5

- The breakdown by institutional sector may be consulted in Table 8.20. There are discrepancies between the amounts of these two Tables, owing to differences in the institutional scope, the fact that the tables have been updated at different times, and differences in the accounting for the acquisition of securities of securitization special purpose entities used to securitize financial assets kept on the institution's balance sheet (see changes introduced in the *Statistical Bulletin* of January 2010).

- b. Overnight deposits. From June 2017 they include saving deposits.
- c. Funds received under financial asset transfers include the funds raised by institutions through financial asset transfer transactions when the transferred financial asset cannot be derecognized as the risk and benefits associated with its ownership have not been substantially transferred.
- d. Hybrid financial liabilities are financial liabilities that include simultaneously a principal contract other than a derivative and a financial derivative known as an "implicit derivative", which is not individually transferable. The flows generated by the hybrid contract normally vary in the same way as those of the derivative considered in isolation. For example, a deposit whose interest rate depends on the changes in the price of a share.
- e. Subordinated deposits include the amount of deposits received which, for the purposes of payment priority, rank behind ordinary debt.
- f. This column includes overnight deposits, savings accounts, deposits with agreed maturity and repurchase agreements. However, mortgage covered bonds with the character of deposits and funds received under financial asset transfers are not included. Mortgage covered bonds are securities whose capital and interest are secured and when they are non-marketable they are included under deposits. Funds received under financial asset transfers are defined in footnote d to Table 4.5. The amount recorded in column 10 of Table 4.5 is broken down by province and region in Tables 4.29 and 4.31.

#### **Table 4.6**

- a. See details in Table 4.9.
- b. From January 2018 the rights on assets held under finance lease are included in column 2, furnishings and real estate

#### **Table 4.7**

- a. The valuation adjustments to equity include the amounts of the adjustments made to assets and liabilities recorded temporarily in equity, under this heading, until they are extinguished or realized, when they are recorded in the income statement.
- b. Financial assets and liabilities valuation adjustments not include the accrued interest and impairment allowances which are presented under separate headings of the assets and/or liabilities.
- c. Impairment allowances include the amounts set aside to cover impairment losses, in relation to loans and other assets.
- d. Impairment allowances, total loans, include the amounts set aside to cover both specific and general insolvency risk attributable to loans and advances to other debtors.
- e. To December 2013, this column offers information on value adjustments for asset impairment, specifically for loans, i.e. it includes exclusively specific provisions for losses on doubtful loans granted to other resident sectors. Based on the data for 2014, the cumulative amounts of the changes in fair value attributable to changes in credit risk are added to these provisions
- f. The figure of net profit (column 6) (following the same criterion of other tables in Chapter 4) includes the sum of the profit or loss of each deposit-taking institution taken individually. This figure is highly influenced by the segregation process of the savings banks' banking business to newly-created banks. Given that a significant portion of the shares of these new banks are part of the savings banks' investment portfolio, the results recorded by the banks to which the business has been transferred, are transmitted to savings banks' results, amplifying the figure of aggregate net profit (or loss) of the deposit-taking institutions as a whole. In order to facilitate interpretation of the amount of net profit (column 6), this column includes the quantity of said net profit which is due to impairment losses on investments.

#### **Table 4.8**

- a. See details in Table 4.9.

#### **Table 4.9**

- a. Trading derivatives include the fair value in favor of the institution of derivatives which do not form part of hedge accounting.
- b. Hedging derivatives include the fair value in favor of the institution of derivatives designated as hedging instruments in hedge accounting.
- c. Insurance contracts linked to pensions include the fair value of the insurance policies to cover staff pension commitments that do not meet the requirements established by Rule thirty-five of Banco de España Circular CBE 4/17 for not recording them in the balance sheet.
- d. Tax assets include the amount of all assets of a tax nature such as taxes paid on account, assets arising from unused tax losses or credits for tax deductions.
- e. Trading derivatives include the fair value of the institution's liability in respect of derivatives that do not form part of hedge accounting.
- f. Hedging derivatives include the fair value of the institution's liability in respect of derivatives designated as hedging instruments in hedge accounting.
- g. Tax collection accounts include the amount collected on behalf of general government in respect of taxes, duties, excise and social security contributions until such monies are finally made over to the relevant agency.
- h. Tax liabilities include the amount of all liabilities of a tax nature, primarily the amount payable in respect of the tax on the taxable profit for the period.

#### **Table 4.10**

- a. Includes only the amount of the specific allowances for insolvency risk attributable to loans and advances to other resident sectors.
- b. From 2014 no information is available on this breakdown.

#### **Table 4.11**

- a. The details of each general government subsector can be found in Table 8.16. There are some small differences owing to the fact that the tables use different definitions of lending and they have been updated at different times. See footnote a to Table 4.A.
- b. The breakdown by province and regional (autonomous) government may be consulted in Tables 4.28 and 4.29.
- c. The breakdown of the total by instrument appears in Table 4.3. In addition, the breakdown by institutional sector can be consulted in Table 8.17. The small discrepancies between the amounts of this table and those of Table 8.17 are attributable to differences in institutional scope and in the definition of lending and the fact that the tables have been updated at different times.

#### **Table 4.99**

- a. See notes to Table 4.1, column 12.
- b. Until the entry into force of Circular 4/2004, this amount was included in column 10.
- c. Until the entry into force of Circular 4/2004, these details were not available for credit financial intermediaries.
- d. See notes to Table 4.1 column 13.

- e. Assets considered as doubtful, since there is doubt regarding full repayment although they cannot be considered non-performing or written-off assets.
- f. Assets considered as doubtful because they are vis-à-vis countries in a certain risk group.

**Table 4.13**

- a. Of the companies and sole proprietorships that receive the loans.
- b. See notes to Tables 8.18 and 8.19.
- c. As from the June 2014 edition the central counterparties are reclassified and the related amounts are included in this series. See details in Table 4.18.
- d. Includes mortgage loans until December 2013; thereafter, includes loans secured by real estate collateral, including those in the form of finance leases, whatever the real estate received as collateral
- e. Includes loans and credits to households for purposes other than consumption and house purchase and renovation, such as education, as well as all loans to non-profit institutions serving households.
- f. As from the June 2014 edition the central counterparties are reclassified and the related amounts are excluded from this series.
- g. This heading refers to lending to households, secured by a residential mortgage, but not for house purchase or for financing productive activities. Accordingly, these loans are included among those granted for renovation, consumer durable purchases and other purposes, i.e. they are part of columns 8 to 10.
- h. As from the June 2014 edition the central counterparties are reclassified and the related amounts are included in this series. See details in Table 4.18 (columns 12 to 22).
- i. From 2014 no information is available on this breakdown.
- j. Includes doubtful loans and credits to households for the acquisition of land, securities and current goods and services that are not considered durables (for instance, loans to finance travel) as well as those for miscellaneous purposes not included among the foregoing.
- k. Includes doubtful loans to households, secured by a residential mortgage, but not for house purchase or for financing productive activities. Accordingly, these doubtful loans are included among those granted for renovation, consumer durable purchases and other purposes, i.e. they are part of columns 21 to 23.

**Table 4.14**

- a. Of the companies and sole proprietorships that receive the loans.
- b. As from the June 2014 edition the central counterparties are reclassified and the related amounts are included in this series. See details in Table 4.19.
- c. Includes mortgage loans until December 2013; thereafter, includes loans secured by real estate collateral, including those in the form of finance leases, whatever the real estate received as collateral
- d. Includes loans and credits to households for purposes other than consumption and house purchase and renovation, such as education, as well as all loans to non-profit institutions serving households. - g. As from the June 2014 edition the central counterparties are reclassified and the related amounts are included in this series. See details in Table 4.19 (columns 12 to 22).
- h. From 2014 no information is available on this breakdown.
- i. Includes doubtful loans and credits to households for the acquisition of land, the acquisition of securities and the acquisition of current goods and services not considered to be consumer durables (for instance, loans to finance travel) and of those for miscellaneous purposes not included in the foregoing.
- j. Includes doubtful loans to households, secured by a residential mortgage, but not for house purchase or for financing productive activities. Accordingly, these doubtful loans are included among those granted for renovation, consumer durable purchases and other purposes, i.e. they are part of columns 21 to 23.

Accordingly, these loans are included among those granted for renovation, consumer durable purchases and other purposes, i.e. they are part of columns 8 to 10.
- g. As from the June 2014 edition the central counterparties are reclassified and the related amounts are included in this series. See details in Table 4.22 (columns 12 to 22).
- h. From 2014 no information is available on this breakdown.
- i. Includes doubtful loans and credits to households for the acquisition of land, the acquisition of securities and the acquisition of current goods and services not considered to be consumer durables (for instance, loans to finance travel) and of those for miscellaneous purposes not included in the foregoing.
- j. Includes doubtful loans to households, secured by a residential mortgage, but not for house purchase or for financing productive activities. Accordingly, these doubtful loans are included among those granted for renovation, consumer durable purchases and other purposes, i.e. they are part of columns 21 to 23.

- a. Includes residual transactions for which the institution has not been able to determine the regional (autonomous) community to which they should be assigned.

**Table 4.32**

- a. See breakdown by subsector in Table 8.20. There are discrepancies between the amounts of these two Tables, owing to differences in the institutional scope, the fact that the tables have been updated at different times, and differences in the accounting for the acquisition of securities of securitization special purpose entities used to securitize financial assets kept on the institution's balance sheet (see changes introduced in the *Statistical Bulletin* of January 2010).
- b. See breakdown by province and region in Tables 4.28 and 4.29.
- c. See breakdown by instrument in Table 4.5. Also, the amount of this column less MMF deposits at credit institutions and credit financial intermediaries is the same, apart from some small differences owing to the fact that the tables have been updated at different times, as that of column 1 of Table 8.20. The breakdown by institutional sector may be consulted in this latter Table.

**Table 4.36**

**Table 4.38**

- a. See details in Table 4.39.
- b. As from June 2017, "Production commissions" are spread across interest expenditures according to its counterpart.

**Table 4.39**

- a. It should be taken into account that while gains and losses on the equity portfolio are included in this table, they are not included in financial revenue.
- b. Since 1996 this interest has been included in interest from debt securities held to maturity.

- c. As from June 2017, a reclassification takes place, and column 10 “Promissory notes and bills” becomes part of column 11.
- d. As from June 2017, it comprises the finance cost corresponding to “Promissory notes and bills”.

**Table 4.40**

- a. As from June 2017, “Fees assigned” are included in column 11.
- b. As from June 2017, this column includes every “Fees paid”, except for those which come from securities transactions.

**Table 4.45**

- a. It includes credit institutions whose scope of operations is restricted and which, under Royal Decree 692/96 of 26 April 1996, became credit financial intermediaries. The specialized lending institutions in place at the time of this change were: finance companies, mortgage lending companies and financial leasing companies. Money Market Intermediaries disappeared in 1994, becoming broker-dealers or agency brokers, following their regulation under the Spanish Stock Market Act 24/88 of 24 July 1988.
- b. See footnote a to Table 4.A.

## NOTES TO THE TABLES OF CHAPTER 6. MONETARY FINANCIAL INSTITUTIONS

Certain headings of the balance sheets of monetary financial institutions according to the euro area returns, published in Chapters 6 and 8 of the Boletín Estadístico, were changed in December 2014 as a result of the entry into force of new accounting rules. These changes only affect the way in which part of the information is presented; they have no impact on the lending and deposits headings and they entail no change in equity in the institutions balance sheets.

Specifically, the entry into force of Banco de España Circular 5/2014 of 28 November 2014, which amends Circular 4/2004 of 22 December 2004 on credit institutions public and confidential financial reporting rules and formats and incorporates the statistical reporting requirements laid down by the European Central Bank<sup>1</sup>, triggers a change in the way in which certain headings of the balance sheets according to the euro area returns are presented. This change means that, with the exception of data on loans and deposits which will continue to be reported at their principal amount, as from the December 2014 data, which are those now published, all the other headings will be reported at their carrying amount, in a further step towards harmonisation with the information reported for supervisory purposes. Accordingly, from December 2014, headings such as "Shares and other equity" on the asset side are reported net of their impairment allowances, and in turn these allowances are no longer carried over to the "Capital and reserves" heading as was the case previously (see Tables 6.2 and 6.3). This change explains the bulk of the variation seen in December 2014 in the size of the total balance sheet and of some of its components, such as "Shares and other equity" or "Capital and reserves".

## NOTES TO THE TABLES OF CHAPTER 7. BANCO DE ESPAÑA

### Table 7.A

a. See notes to table 7.2, columns 6 to 8.

### Table 7.1

- a. See breakdown in tables 7.3 and 7.4.
- b. See breakdown in table 7.5.
- c. See breakdown in table 7.7.

### Table 7.2

- a. See breakdown in tables 7.8 and 7.9.
- b. See breakdown in table 7.10.
- c. See breakdown in table 7.11.
- d. Including, since January 2002, the percentage of all euro banknotes in circulation allocated to the Banco de España under the accounting system established for the Eurosystem (see note to the summary balance sheet at the end of this bulletin), as well as unreturned peseta banknotes.
- e. From January 2003, only the amount of banknotes allocated by the Eurosystem is included here.
- f. From January 2003, only the amount of euro coins is included here.
- g. Comprising the notes and coins actually put into circulation by the Banco de España (see tables 7.16 to 7.17).

### Table 7.3

a. See breakdown in table 7.4.

### Table 7.5

a. See breakdown in table 7.6.

### Table 7.8

a. See breakdown in table 7.9.

### Table 7.11

a. Until December 1998 repos are included in column 3 as separate data were not available.

### Table 7.12

a. The design of this table follows the IMF's Special Data Dissemination Standard (SDDS) and is, thus, an alternative to that of tables 7.1 and 7.2.

### Table 7.16

- a. The euro banknotes distributed by the Banco de España do not coincide with the percentage of the total value of euro banknotes in circulation that corresponds to the Banco de España under the rules for allocation of banknotes in the Eurosystem (see table 7.2 and the note to the summary balance sheet included at the end of this publication).
- b. Since January 2003, this total for euro banknotes, plus the total for euro coins placed in circulation by the Banco de España (table 7.17, column 1), make up the cash placed in circulation by the Banco de España (table 7.2, column 16). Until December 2002, the cash placed in circulation by the Banco de España is made up of the total for euro banknotes, plus the total for euro coins placed in circulation, plus unreturned peseta banknotes and coins (table 7.16, column 16 and table 7.17, column 17).

### Table 7.17

a. Since January 2003, this total for euro coins, plus the total for banknotes placed in circulation by the Banco de España (table 7.16, column 1) make up the cash placed in circulation by the Banco de España (table 7.2, column 16). Until December 2002, the cash placed in circulation by the Banco de España is made up of the total for euro banknotes, plus the total for euro coins placed in circulation, plus unreturned peseta banknotes and coins (table 7.16, column 16 and table 7.17, column 17).

## CHAPTER 8 OTHER MONETARY FINANCIAL INSTITUTIONS

## NOTICE RELATED TO THE CHAPTER 8

### **Changes made to the series from June 2005**

This chapter includes credit institutions (along with money market funds), although with an alternative presentation to that of Chapter 4. Its tables are based on Rule seventy-one and Annex VII of CBE 4/4004 (to apply IFRS to credit institutions), approved on 22 December 2004, which refer to the EMU statistical requirements. Although the returns have not been changed significantly, they have been affected by the new accounting rules. Accordingly, although these tables continue to be updated, there have been some changes as a consequence of the entry into force of the new Circular. The most relevant are: a) savings accounts, classified until May 2005 as deposits redeemable at notice up to three months (column 12 of Table 8.44 and columns 6 and 12 of Table 8.9, among others), are now included within overnight deposits (column 9 of Table 8.44 and columns 3 and 9 of Table 8.9, among others). This change is reflected in the tables of the interest rates of these instruments (Tables 9 and 15 of Chapter 19 relating to the interest rates of credit institutions); and b) the return to the balance sheet of some of the securitised assets that had been removed from the balance sheet in application of the rules in force until the approval and entry into force of CBE 4/2004. This change has led to an exceptional increase in the amount of credit (column 6 of Table 8.41 and column 6 of Table 8.2, among others) and in time deposits (column 6 of Table 8.42 and column 6 of Table 8.3, among others).

**General note: Many columns are broken down in subsequent tables, as indicated at the foot of each table.**
