## NOTES TO THE TABLES OF CHAPTER 8. OTHER MONETARY FINANCIAL INSTITUTIONS

Certain headings of the balance sheets of monetary financial institutions according to the euro area returns, published in Chapters 6 and 8 of the Statistical Bulletin, were changed in December 2014 as a result of the entry into force of new accounting rules. These changes only affect the way in which part of the information is presented; they have no impact on the lending and deposits headings and they entail no change in equity in the institutions' balance sheets.

Specifically, the entry into force of Banco de España Circular 5/2014 of 28 November 2014, which amends Circular 4/2004 of 22 December 2004 on credit institutions public and confidential financial reporting rules and formats and incorporates the statistical reporting requirements laid down by the European Central Bank<sup>1</sup>, triggers a change in the way in which certain headings of the balance sheets according to the euro area returns are presented. This change means that, with the exception of data on loans and deposits which will continue to be reported at their principal amount, as from the December 2014 data, which are those now published, all the other headings will be reported at their carrying amount, in a further step towards harmonisation with the information reported for supervisory purposes. Accordingly, from December 2014, headings such as "Shares and other equity" on the asset side are reported net of their impairment allowances, and in turn these allowances are no longer carried over to the "Capital and reserves" heading as was the case previously (see Tables 8.2 and 8.3). This change explains the bulk of the variation seen in December 2014 in the size of the total balance sheet and of some of its components, such as "Shares and other equity" or "Capital and reserves".

### Table 8.A

a. Source: CNMV. The monthly time series of the main items are published on the Banco de España website at <http://www.bde.es/bde/en/>, tables of the Statistical Bulletin, tables 8.91 and 8.92.

### Table 8.1

- a. See breakdown in tables 8.2 and 8.3.
- b. See breakdown in tables 8.31 to 8.34.
- c. See breakdown in tables 8.41 to 8.44.
- d. See breakdown in tables 8.51 to 8.54.
- e. See breakdown in tables 8.91 and 8.92.

### Table 8.2

- a. See breakdown in table 8.4.
- b. See breakdown in table 8.6.
- c. See breakdown in table 8.8.
- d. Until November 2014 only MMF shares are included; investment fund shares are included from December 2014.
- e. Until November 2014 equity and non-MMF investment fund shares are included; equity is included from December 2014.

### Table 8.3

- a. This column coincides with the sum of column 1, table 8.9 and column 11, table 8.91.
- b. This column coincides with the sum of column 1, table 8.11 and column 12, table 8.91.
- c. This column coincides with the sum of column 1, table 8.13 and column 13, table 8.91.
- d. See breakdown in table 8.13.
- e. This column coincides with the sum of column 1, table 8.9, column 1, table 8.11 and column 1, table 8.13.
- f. The breakdown by holder is shown in table 8.91, columns 11 to 13.

### Table 8.4

- a. See breakdown in table 8.14.
- b. See breakdown in table 8.15.
- c. Until November 2014 only MMF shares are included; investment fund shares are included from December 2014.
- d. Until November 2014 equity and non-MMF investment fund shares are included; equity is included from December 2014.

### Table 8.6

- a. See breakdown in table 8.7.
- b. Until November 2014 only MMF shares are included; investment fund shares are included from December 2014.
- c. Until November 2014 equity and non-MMF investment fund shares are included; equity is included from December 2014.

### Table 8.8

- a. Until November 2014 only MMF shares are included; investment fund shares are included from December 2014.
- b. Until November 2014 equity and non-MMF investment fund shares are included; equity is included from December 2014.

### Table 8.9

- a. See breakdown in tables 8.14 and 8.16.
- b. See breakdown in tables 8.10, 8.15.

### Table 8.11

- a. See breakdown in table 8.12.

### Table 8.13

- a. Until December 1998 the amount of repo sales is included in column 3.

**Table 8.14**

a. See breakdown in table 8.16.

**Table 8.15**

a. See breakdown in tables 8.17 and 8.20.

**Table 8.17**

a. Only includes repos.

**Table 8.18**

a. This column coincides with the sum of columns 6 and 14 of table 8.19.

**Table 8.19**

- a. See breakdown in table 8.18. This series is available monthly in csv files.
- b. Includes mortgage loans until December 2013; thereafter, includes loans secured by real estate collateral, including those in the form of finance leases, whatever the real estate received as collateral. These columns correspond to columns 6-7 of table 4.13.
- c. As from the June 2014 edition the central counterparties are reclassified and the related amounts are included in the historical series.
- d. This column coincides with column 14 of table 4.13.
- e. This column coincides with column 8 of table 4.13.
- f. This series is available monthly in csv files.
- g. This column coincides with column 9 of table 4.13.
- h. This column coincides with column 4 of table 4.13 and with column 7 of table 8.18. This series is available monthly in csv files.

**Table 8.20**

a. Include only repurchase agreements.

**Table 8.21**

a. More than 3 months.

**Table 8.22**

a. More than 3 months.

**Table 8.23**

- a. Amounts outstanding of revolving loans, understood as those loans other than those in the form of credit cards that have the following characteristics: 1) the borrower may use or withdraw funds to a pre-approved credit limit without giving prior notice to the lender; 2) the amount of available credit can increase and decrease as funds are borrowed and repaid; 3) the credit may be used repeatedly; and 4) there is no obligation of regular repayment of funds. This item also includes the amounts of overdrafts, i.e. debit balances on current accounts.
- b. Amounts obtained either via delayed debit cards or via credit cards for which the holders have not requested deferred payment, at an interest rate of 0% between the drawdown date and the repayment date.
- c. Amounts obtained via credit cards for which the holders have requested delayed payment at an interest rate usually above 0%.
- d. Amounts of demand deposits which are directly transferable to make payments to third parties by commonly used means of payment, such as credit transfer, cheques, banker's order, debit entry, credit or debit card, e-money transactions, or other similar means, without significant delay, restriction or penalty.

**Table 8.24**

- a. Until November 2014 only MMF shares are included; investment fund shares are included from December 2014.
- b. Until November 2014 equity and non-MMF investment fund shares are included; equity is included from December 2014.

**Table 8.31**

- a. See breakdown in table 8.33.
- b. Until November 2014 only MMF shares are included; investment fund shares are included from December 2014.
- c. Until November 2014 equity and non-MMF investment fund shares are included; equity is included from December 2014.

**Table 8.32**

a. See breakdown in table 8.34.

**Table 8.33**

- a. Until November 2014 only MMF shares are included; investment fund shares are included from December 2014.
- b. Until November 2014 equity and non-MMF investment fund shares are included; equity is included from December 2014.

**Table 8.C**

- a. The euro area minimum reserves system entered into force in early January 1999. This appendix to table 8.A aims to describe the conceptual scope of the system, which is based on the information collected from the monthly balance sheets of the Credit Institutions. These institutions are featured in table 8.A column b.
- b. Any discrepancy between the data in column 2 and the sum of the codes shown in the column of items is due to the lag between the updating of the balance sheets (table 8.C) and tables of time series and the updating of the reserve base (table 8.45).

**Table 8.41**

- a. See breakdown in table 8.43.
- b. Until November 2014 only MMF shares are included; investment fund shares are included from December 2014.

c. Until November 2014 equity and non-MMF investment fund shares are included; equity is included from December 2014.

**Table 8.42**

a. See breakdown in table 8.44.

**Table 8.43**

a. Until November 2014 only MMF shares are included; investment fund shares are included from December 2014.  
b. Until November 2014 equity and non-MMF investment fund shares are included; equity is included from December 2014.

**Table 8.51**

a. See breakdown in table 8.53.  
b. Until November 2014 only MMF shares are included; investment fund shares are included from December 2014.  
c. Until November 2014 equity and non-MMF investment fund shares are included; equity is included from December 2014.

**Table 8.52**

a. See breakdown in table 8.54.

**Table 8.53**

a. Until November 2014 only MMF shares are included; investment fund shares are included from December 2014.  
b. Until November 2014 equity and non-MMF investment fund shares are included; equity is included from December 2014.

**Table 8.F**

a. As at 31 December 1997, there are 106 MMF.  
b. As at 31 December 1998, 136 MMF are included in the list approved and disseminated (in April 1998) by the ECB.  
c. From January 1999, all FIAMM are MMF.

**Table 8.91**

a. Until 31/12/97, 107 FIAMM were classified as MMF. From 1/1/98 until 31/12/98, 136 FIAMM were classified as MMF. Since 1/1/99, all FIAMM have been classified as MMF.  
b. Another table contains the breakdown of this column.

(a) Figures relating to subsector/sectoral aggregation (in bold) correspond to total financial assets, which are obtained from the Financial Accounts of the Spanish Economy. On the other hand, entity type breakdowns are not exhaustive, since they do not include all types of entity within each subsector, and, since that information is obtained from balance sheet information, they also include non-financial assets.

(b) Listed real-estate investment companies. They have a very similar legal form to those entities known internationally as real estate investment trusts (REITs).

(c) Captive financial institutions issuing debt securities classified as non-financial corporations are not included in this aggregate.

(d) Specialised credit institutions are classified in subsector S.122, which includes deposit-taking corporations except the central bank.

**9. NON-MONETARY FINANCIAL INSTITUTIONS**  
**A) Non-bank financial institutions. Financial balance sheet**

## NOTES TO THE TABLES OF CHAPTER 9. APPRAISAL COMPANIES

### Overview

These tables, which are only available in the electronic edition of the *Statistical Bulletin*, contain information of the activity and financial statements of appraisal companies. The scope of this information is limited to the data compiled by the Banco de España in accordance with CBE 3/1998 of 27 January 1998 (amended by CBE 2/2009 and CBE 5/2003).

The tables contain information, broken down by appraised assets, on the number of appraisals (Table 9.30), on the amount of appraisals (Table 9.31) and on the appraised usable area of properties (Table 9.32). This information has been used to obtain the series on average value of appraised square metre (Table 9.33), which should not be interpreted as a reference price per unit of area, given the heterogeneity of the appraised properties included in the various aggregates. Nor can it be considered an accurate indicator of price behaviour, since it is not based on a homogeneous sample over time of appraised properties. Tables 9.34 and 9.35 give the number and amount of appraisals by type of customer and purpose of appraisal and Tables 9.36 to 9.41 contain a geographical breakdown. Finally, information is provided on the balance sheets (Table 9.42) and profit and loss accounts of appraisal companies (Table 9.43).

### Notes on Tables 9.30 to 9.43

#### Tables 9.30, 9.31 and 9.32

- a. Buildings are classified according to their main use, based on the area devoted to each use. Since 1998 buildings under construction are included only at the value of the finished building. Intermediate appraisals are included only under the related heading in memorandum items.
- b. Non-buildable land, excluding that relating to an economic activity permitted under current legislation and that included in rural property. See Note (c).
- c. Refers to any building or part thereof relating to an economic activity or business operation: hotels, residences, hospitals, industrial facilities, transport centres, community facilities, etc.
- d. Including urban development works, etc. Until 2003 includes non-buildable land.
- e. Intangible assets, companies, machinery, fixtures, other physical assets, goodwill, options and other assets.
- f. Includes those less than two years old, except when they must appear as new appraisals because of a significant change in the appraised asset. Until 1997, inclusive, this heading included intermediate appraisals.
- g. Intermediate appraisals must include the net increments in value of the certificates issued after the initial appraisal or during the construction or rehabilitation of a building.
- h. Irrespective of whether the various buildings or parts thereof are included under the relevant headings.

#### Table 9.33

- a. The property items whose average values are of most significance or interest have been selected. The full information available for calculating the average values is given in Tables 9.31 and 9.32.

#### Table 9.36

- a. The detail by Regional (Autonomous) Government is given in Table 9.38.
- b. The detail by Regional (Autonomous) Government is given in Table 9.39.

#### Table 9.37

- a. The detail by Regional (Autonomous) Government is given in Table 9.40.
- b. The detail by Regional (Autonomous) Government is given in Table 9.41.

#### Table 9.38

- a. The total is given in column 2 of Table 9.36.
- b. Includes Ceuta and Melilla.

#### Table 9.39

- a. The total is given in column 9 of Table 9.36.
- b. Includes Ceuta and Melilla.

#### Table 9.40

- a. The total is given in column 2 of Table 9.37.
- b. Includes Ceuta and Melilla.

#### Table 9.41

- a. The total is given in column 9 of Table 9.37.
- b. Includes Ceuta and Melilla.

**Table 9.42**

a. Number of institutions sending information on their activity and financial statements.

**Table 9.43**

a. Gains or losses on financial transactions include, in addition to financial revenue and expenses, the following income statement captions: Change in fair value of financial instruments, Exchange differences and Impairment and gains (losses) on disposal of financial instruments.

See notes at the end of the chapter.

## NOTES TO THE TABLES OF CHAPTER 11: GENERAL GOVERNMENT

### Table 11.1

- Liabilities issued by general government and held by other general government units, other accounts payable and adjustments for differences between the market value and the nominal value of the liabilities net incurrence of shares and other equity (PF.5), as well as other adjustments resulting from the reclassification of institutional units and other changes in the information.
- The figures for GDP at market prices are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date.
- Note: Any discrepancies between the data in this table and in Table 2.9 are due to revisions made after the submission of the EDP notification to the European Commission.

### Table 11.2

Note: The quarterly percentages are calculated: 1) When the GDP for the four quarters of the year in question is available, using the GDP for that year; 2) when the GDP for the four quarters of the year in question is not available, using the annual GDP obtained by aggregating the quarterly GDP figures for the last four quarters. See notes to Table 11.1.

### Table 11.3

See notes to Table 11.1 and 11.2.

### Table 11.4

See notes to Table 11.1

### Table 11.5

See notes to Table 11.2

### Table 11.6

- General government EDP debt does not include financial assets/liabilities incurred by general government and held by other general government units (columns 3, 6, 9 and 12).
- Financing by the Autonomous Region Liquidity Fund (FLA), payments made to creditors on behalf of the Regional (autonomous) Government and Local Governments by the Fund for the Payment of Creditors (FFPP) and Social Security loan.
- Debt issued by the State held by the Fondo de Garantía Salarial (FOGASA), the Mutuas de Accidentes de Trabajo y Enfermedades Profesionales and the Fondo de Prevención y Rehabilitación.

### Table 11.7

Note: The quarterly percentages are calculated: 1) When the GDP for the four quarters of the year in question is available, using the GDP for that year; 2) when the GDP for the four quarters of the year in question is not available, using the annual GDP obtained by aggregating the quarterly GDP figures for the last four quarters. See notes to Table 11.6.

### Table 11.8

- Annual change in column 11 of Table 11.1.
- A positive figure means that this item increases debt and a negative figure means that it decreases debt. c. Breakdown of column in Table 11.10.
- Includes effects such as those produced by the reclassification of institutional units or financial items.
- Includes adjustments for interest accrued less interest paid, for issue or redemption premiums, for the difference between the nominal and cash amount of discounted issues, for capital losses or gains arising from early payment of liabilities, for discrepancies between the net lending (+) or net borrowing (-) and net financial transactions and net incurrence of shares and other equity (PF.5).

### Table 11.9

Note: The quarterly percentages are calculated: 1) When the GDP for the four quarters of the year in question is available, using the GDP for that year; 2) when the GDP for the four quarters of the year in question is not available, using the annual GDP obtained by aggregating the quarterly GDP figures for the last four quarters. See notes to Table 11.8.

### Table 11.12

- Already deducted from columns 3 to 9.

Note: Any discrepancies between the data in this table and in Table 2.9 are due to revisions made after the submission of the EDP notification to the European Commission.

### Table 11.13

Note: Any discrepancies between the data in this table and in Table 2.9 are due to revisions made after the submission of the EDP notification to the European Commission.

**Table 11.15**

- a. The units included here as public enterprises are the main non-administrative agencies, entities and enterprises not classified under regional (autonomous) government.
- b. The figures for GDP at market prices are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date.

**Table 11.16**

- a. As a result of the reform of the Common Agricultural Policy (CAP) in 2004 (Council Regulation (EC) No 1782/2003 and subsequent provisions), and pursuant to Council Regulation (EC) 1290/2005, two new European agricultural funds have been created, the European Agricultural Guarantee Fund (EAGF) and the European Agricultural Fund for Rural Development (EAFRD). These funds replace the two sections of the former European Agricultural Guidance and Guarantee Fund (EAGGF): Guarantee and Guidance.
- b. Likewise, pursuant to Council Regulation (EC) No 1198/2006, the Financial Instrument for Fisheries Guidance (FIFG) has been replaced by the European Fisheries Fund (EFF).

See notes at the end of the chapter.

## NOTES TO THE TABLES OF CHAPTER 12. CENTRAL GOVERNMENT AND SOCIAL SECURITY FUNDS

### Table 12.1

a. Liabilities issued by central government and held by other central government units, other accounts payable and adjustments for differences between the market value and the nominal value of the liabilities net incurrence of shares and other equity (PF.5), as well as other adjustments resulting from the reclassification of institutional units and other changes in the information.

b. The figures for GDP at market prices are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date.

### Table 12.2

Note: The quarterly percentages are calculated: 1) When the GDP for the four quarters of the year in question is available, using the GDP for that year; 2) when the GDP for the four quarters of the year in question is not available, using the annual GDP obtained by aggregating the quarterly GDP figures for the last four quarters.

See notes to Table 12.1.

### Table 12.3

a. Annual change in column 9 of Table 12.1.

b. A positive figure means that this item increases debt and a negative figure means that it decreases debt.

c. Breakdown of column in Table 12.5.

d. Includes effects such as those produced by the reclassification of institutional units or financial instruments.

e. Includes adjustments for interest accrued less interest paid, for issue or redemption premiums, for the difference between the nominal and cash amount of discounted issues, for capital losses or gains arising from early payment of liabilities and net incurrence of shares and other equity (PF.5).

### Table 12.4

See notes to Table 12.3

### Table 12.6

a. Breakdowns of debt securities by instrument and of issues denominated in euro and in other currencies are given in Tables 21.12, 21.13 and 21.15. The difference between column 4 of this table 'Total debt securities' and column 1 of Table 21.12 'Total securities other than shares, except financial derivatives' arises from the fact that debt according to the methodology of the excessive deficit protocol excludes the securities held by other general government units and takes currency swaps into account.

b. Not deducted from column 1.

### Table 12.10

a. The units included here as public enterprises are the main non-administrative agencies, entities and enterprises not classified under central government. For ease of comparison with the central government debt shown in this chapter, the debt of public enterprises shown in this table has been calculated using the EDP methodology. The debt of public enterprises does not fall within the scope of the EDP and, therefore, unlike the debt of general government (public debt), it is not included in the notifications sent to the European Commission.

b. As a consequence of the reallocation of assets and liabilities prompted by RDL 7/2004 of 27 September 2004, between November and December 2004, an amount of €5,458 million that formed part of the debt of RENFE was assumed by the State.

c. Law 39/2003 on the railway industry of 17 November 2003 reorganised the state railway industry, the management of the railway infrastructure (which was previously entrusted to RENFE and GIF) being entrusted to ADIF. Also RENFE-Operadora was set up, as a company providing railway transport services. This company assumed the resources and assets previously assigned by RENFE to the provision of railway services.

### Table 12.11

a. Liabilities issued by social security funds and held by other social security funds, other accounts payable and adjustments for differences between the market value and the nominal value of the liabilities net incurrence of shares and other equity (PF.5), as well as other adjustments resulting from the reclassification of institutional units and other changes in the information.

b. The figures for GDP at market prices are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date.

### Table 12.12

Note: The quarterly percentages are calculated: 1) When the GDP for the four quarters of the year in question is available, using the GDP for that year; 2) when the GDP for the four quarters of the year in question is not available, using the annual GDP obtained by aggregating the quarterly GDP figures for the last four quarters.

See notes to Table 12.11.

**Table 12.13**

- a. Annual change in column 9 of Table 12.11.
- b. A positive figure means that this item increases debt and a negative figure means that it decreases debt.
- c. Breakdown of column in Table 12.15.
- d. Includes effects such as those produced by the reclassification of institutional units or financial instruments.
- e. Includes adjustments for interest accrued less interest paid, for issue or redemption premiums, for the difference between the nominal and cash amount of discounted issues, for capital losses or gains arising from early payment of liabilities and net incurrence of shares and other equity (PF.5).

**Table 12.14**

See notes to Table 12.13.

**Table 12.16**

- a. Not deducted from column 1.

See notes at the end of the chapter.

## NOTES TO THE TABLES OF CHAPTER 13: REGIONAL (AUTONOMOUS) GOVERNMENTS

### Table 13.1

a. Liabilities issued by Regional (autonomous) Governments and held by other Regional (autonomous) Governments, other accounts payable and adjustments for differences between the market value and the nominal value of the liabilities net incurrence of shares and other equity (PF.5), as well as other adjustments resulting from the reclassification of institutional units and other changes in the information.

b. The figures for GDP at market prices are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date.

### Table 13.2

Note: The quarterly percentages are calculated: 1) When the GDP for the four quarters of the year in question is available, using the GDP for that year; 2) when the GDP for the four quarters of the year in question is not available, using the annual GDP obtained by aggregating the quarterly GDP figures for the last four quarters.

See notes to Table 13.1.

### Table 13.3

a. Annual change in column 9 of Table 13.1.

b. A positive figure means that this item increases debt and a negative figure means that it decreases debt.

c. Breakdown of column in Table 13.5.

d. Includes effects such as those produced by the reclassification of institutional units or financial instruments.

e. Includes adjustments for interest accrued less interest paid, for issue or redemption premiums, for the difference between the nominal and cash amount of discounted issues, for capital losses or gains arising from early payment of liabilities and net incurrence of shares and other equity (PF.5).

### Table 13.4

See notes to Table 13.3.

### Table 13.7

a. A breakdown of issues into those denominated in euro and those denominated in currencies other than the euro is given in Table 21.18. The difference between column 3 of this table, 'total debt securities issued' and column 1 of table 21.18 'total debt securities issued excluding financial derivatives' arises from the fact that debt according to the methodology of the excessive deficit procedure takes into account the currency swaps carried out by the various regional (autonomous) governments.

### Table 13.8

a. Includes the governing bodies of the regional (autonomous) governments.

b. The figures for GDP at market prices are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date.

### Table 13.9

a. Each regional (autonomous) government includes the units concerned with the general administration of the region, the universities located within its territory and those bodies and enterprises reporting to the regional (autonomous) government that are classified under general government. The Autonomous Cities of Ceuta and Melilla are classified in subsector Local Governments of the national accounting system.

b. The provincial councils of the Basque Country are classified in subsector Local Governments of the national accounting system. Table 14.8, column 16, provides information about the debt of the provincial councils of the Basque Country

### Table 13.10

c. The figures for GDP at market prices used for the total are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date. For the individual regional (autonomous) governments, the regional GDP mp published in the Spanish Regional Accounts (CRE) of the INE has been applied to the national GDP mp.

See notes to Table 13.9.

### Table 13.11

a. The units included here as public enterprises are the main non-administrative agencies, entities and enterprises of the regional (autonomous) governments, which are classified as Public Administration. For ease of comparison with the general government debt shown in the previous tables (which is public debt, as narrowly defined), the debt of public enterprises shown in this table has been calculated using EDP methodology. The debt of public enterprises does not fall within the scope of the EDP, and therefore, unlike the debt of general government (public debt), it is not included in the notifications sent to the European Commission.

**Table 13.12**

c. The figures for GDP at market prices used for the total are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date. For the individual regional (autonomous) governments, the regional GDP mp published in the Spanish Regional Accounts (CRE) of the INE has been applied to the national GDP mp.

See note a to Table 13.11 and note b to table 13.9.

## CHAPTER 14 LOCAL GOVERNMENTS

## 14. LOCAL GOVERNMENTS

### 14.1 Net lending (+) or net borrowing (-), liabilities outstanding and debt according to the Excessive Deficit Procedure (EDP). Amounts

Net lending (+) or net borrowing (-): INE and IGAE. GDPmp : INE.

EUR millions

|       | Net lending (+)<br>or net borrow-<br>ing (-) | Liabilities outstanding and debt according to the EDP                                                   |                                                                                                 |                                                                             |                         |                                                        |       |                                    |                                            | Memorandum<br>item:<br>GDP mp (b) |           |

See notes at the end of the chapter.

## NOTES TO THE TABLES OF CHAPTER 14. LOCAL GOVERNMENTS

### Table 14.1

a. Liabilities issued by Local Governments and held by other Local Governments, other accounts payable and adjustments for differences between the market value and the nominal value of the liabilities net incurrence of shares and other equity (PF.5), as well as other adjustments resulting from the reclassification of institutional units and other changes in the information.

b. The figures for GDP at market prices are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date.

### Table 14.2

Note: The quarterly percentages are calculated: 1) When the GDP for the four quarters of the year in question is available, using the GDP for that year; 2) when the GDP for the four quarters of the year in question is not available, using the annual GDP obtained by aggregating the quarterly GDP figures for the last four quarters.

See notes to Table 14.1.

### Table 14.3

a. Annual change in column 9 of Table 14.1.

b. A positive figure means that this item increases debt and a negative figure means that it decreases debt.

c. Breakdown of column in Table 14.5.

d. Includes effects such as those produced by the reclassification of institutional units or financial instruments.

e. Includes adjustments for interest accrued less interest paid, for issue or redemption premiums, for the difference between the nominal and cash amount of discounted issues, for capital losses or gains arising from early payment of liabilities and net incurrence of shares and other equity (PF.5).

### Table 14.4

See notes to Table 14.3.

### Table 14.7

a. A breakdown of issues into those denominated in euro and those denominated in currencies other than the euro is given in Table 21.18.

### Table 14.8

a. Classified under local government are the municipal, ordinary-regime and specific-status provincial and island authorities, municipal groupings, and those bodies and enterprises subordinate to local government that are classified under general government.

b. The figures for GDP at market prices are calculated using the official series of the Spanish Quarterly National Accounts (CNE) published by the INE, by aggregating the last four quarters as at each reference date.

CHAPTER 15 NON FINANCIAL CORPORATIONS: SUMMARY INFORMATION COMPILED BY THE  
CENTRAL BALANCE SHEET DATA OFFICE

15 NON-FINANCIAL CORPORATIONS:  
Summary information compiled by the Central Balance Sheet Data Office

15.A All spanish non-financial corporations and those covered  
by the databases of the Central Balance Sheet Office (CB).

December 2022 data (2024 November update)

Number of corporations

See notes at the end of the chapter.

## NOTES TO THE TABLES OF CHAPTER 15

### Definition of the ratios included in Tables 15.6 to 15.30:

$$\begin{aligned} R1 &= [(27+29)/(10-14-17)]*100 \\ R2 &= [27/(13+16)]*100 \\ R3 &= (29/11)*100 \\ R4 &= R1 - R2 \\ R5 &= (24/18)*100 \\ R6 &= (24/22)*100 \\ E1 &= [(13+16)/(10-14-17)]*100 \\ E2 &= (13+16)/(24+25)*100 \\ \text{Interest burden} &= [27/(24+25)]*100 \end{aligned}$$

### A. BALANCE SHEET

1. Fixed assets
2. Tangible assets
3. 1. Book
4. 2. Adjustment to current prices
5. Other fixed assets
6. Current assets
7. Trade and other accounts receivable
8. Other current assets.
9. Other assets
10. Assets = Liabilities
11. Equity  
(including adjustment to current prices)
12. Creditors and provisions
13. Credit institutions.
14. Trade and other accounts payable
15. Other creditors
16. With financial cost
17. Without financial cost

### B. PROFIT AND LOSS ACCOUNT

- (See rates of change in Tables 15.1 to 15.6)
18. Value of output (including subsidies)
  19. Net turnover
  20. Other operating income
  21. Inputs (including taxes)
  22. Gross value added at factor cost (18-21)
  23. Personnel costs
  24. Gross operating profit (22-23)
  25. Financial revenue.
  26. Financial costs
  27. Interest on borrowed funds
  28. Depreciation and operating provisions
  29. Ordinary net profit (24+25-26-28)
  30. Corporate income tax
  31. Other income and expenses
  32. Profit/loss for the year (29-30-31)

### Table 15.3 and Table 15.6

a. The quarterly series of year n for quarter t includes the rates of the cumulative data for year n up to quarter t, compared with the same period a year earlier.

### Table 15.8, Table 15.14 and Table 15.17

a. The ordinary net profit (ONP) used to calculate this ratio includes, for each quarter, the proportional part of the dividends received up to that quarter from the beginning of the year, determined on a straight-line basis; the ratio of Table 15.9 provides cumulative information for each period (Q1, Q1-Q2, Q1-Q3, Q1-Q4) in which the total dividend received is included.

**Table 15.9, Table 15.12, Table 15.15, Table 15.18 and Table 15.21**

a. The quarterly series of year n for quarter t includes the ratios of the cumulative data for year n up to quarter t.

**Table 15.26, Table 15.28 and Table 15.30**

a. Columns t and t-1 in the annual frequency block refer to the fourth quarter of year t and the fourth quarter of year t-1. In the quarterly frequency block, columns t and t-1 contain the information of the quarter in question (t) and of that immediately preceding it (t-1), respectively.

**Table 15.31 and Table 15.32**

Note: Ratios FSI.1 and FSI.2nd have been prepared in accordance with the methodology defined by the IMF in its document Financial Soundness Indicator. Compilation Guide.

a. Figures for 2010 and 2011, both for total and for different aggregates by sector and size, are obtained by applying the rate of change of the previous base to the current base.

b. Data from the last period is an estimate made from the latest quarterly information received in the quarterly survey of the Central balance sheet data office (CBQ).

## CHAPTER 16 HOUSEHOLDS AND NPISHS

## 16. HOUSEHOLDS AND NPISHs

## 16.1 Gross national disposable income. Components

EUR millions (col.1 to 8), euros (col.9 to 14) and % (col. 15 y 16)

|        | Gross disposable income (GDI) | Resources (R)             |                               |                 |                                             | Uses (U) |                 |                                                  | Gross disposable income per capita (4-quarter cumulated) (a) |                           |        |                           |                                       |        | Annual percentage change (4-q cum.) |                |
|--------|-------------------------------|---------------------------|-------------------------------|-----------------|---------------------------------------------|----------|-----------------|--------------------------------------------------|--------------------------------------------------------------|---------------------------|--------|---------------------------|---------------------------------------|--------|-------------------------------------|----------------|
|        |                               | Compensation of employees | Gross operating surplus (GOS) | Property income | Social benefits and other current transfers | Taxes    | Property income | Social contributions and other current transfers | Total                                                        | Compensation of employees | GOS    | Property income (net) R-U | Social transfers and others (net) R-U | Taxes  | GDI                                 | GDI per capita |
|        | 1=2to5-6to8                   | 2                         | 3                             | 4               | 5                                           | 6        | 7               | 8                                                | 9=10to13-14                                                  | 10                        | 11     | 12                        | 13                                    | 14     | 15                                  | 16             |

WORKING AGE POPULATION (between 16 and 64 years old)  
Annual percentage change and its contributions

SOURCE: EAPS and NA (INE).

a. The employment rate is the ratio of employed persons aged 14-64 to the total population aged 14-64.

## 16. HOUSEHOLDS AND NPISHs

## 16.3 Gross disposable income. Uses

EUR millions (col. 1 to 5) and euros (col. 6 to 10)

See the definition of the main items in the notes at the end of the chapter.

a. Data from the Spanish Tax Agency's department of Customs and Excise Duties. These data are used as inputs for Balance of Payments estimates. Data for years up to two years before the year of the last observation are definitive and more recent data are provisional.

b. Spain's flows to/from the European Union included in primary income (taxes on production and imports, and subsidies), secondary income and the capital account.

**17. BALANCE OF PAYMENTS AND INTERNATIONAL INVESTMENT POSITION**
**A) Balance of payments**
**17.3a Current and capital accounts**
**Breakdown by geographical and economic areas (a) (b)**

2023 data. 2024 September update

...: Amount not disclosed due to statistical confidentiality reasons.

-: Nil.

a. The composition of economic areas is detailed in the notes at the end of the chapter.

b. The difference between the amount assigned to the world total and the sum of the amounts for all the geographical areas is due to data without a geographical assignment and data from international institutions other than European Union. The presence of information without geographical assignment may also promote that the total amount for continents are not necessarily equal to the sum of their components.

c. In the case of portfolio investment, the geographical breakdown of the investment income from liabilities (payments) is based on the available information. This refers to the first non-resident counterpart, which does not necessarily correspond to the final holder of the securities.

**17. BALANCE OF PAYMENTS AND INTERNATIONAL INVESTMENT POSITION**  
**A) Balance of payments**

**17.4 Current account**  
**Breakdown of goods and services**

**17.4c. Cuenta corriente. Turismo y viajes. Ingresos**  
**Detalle por zonas económicas y geográficas (a)(b)**

...: Dato con insuficiente número de observaciones muestrales en fuente primaria EGATUR (Encuesta de Gasto Turístico).

a. La composición de las zonas económicas se detalla en las notas al final del capítulo.

b. La diferencia entre los importes asignados a los totales por continente y la suma de sus componentes cuando estos se desglosan corresponde a información que ha quedado indeterminada geográficamente.

**17.4c. Current account. Travel. Credits**

a. The difference between the amount assigned to the world total and the sum of the amounts for all the geographical areas is due to data without a geographical assignation and data from international institutions other than European Union. The presence of information without geographical assignation may also promote that the total amount for continents are not necessarily equal to the sum of their components.

a. The difference between the amount assigned to the world total and the sum of the amounts for all the geographical areas is due to data without a geographical assignation and data from international institutions other than European Union. The presence of information without geographical assignation may also promote that the total amount for continents are not necessarily equal to the sum of their components.

a. Non-produced, non-financial assets comprise transactions associated with assets that may be used or needed for production of goods and services but have not themselves been produced, e.g. trademarks, franchises, etc. and leases or other transferable contracts.

See the definition of the main items in the notes at the end of the chapter.

2024 September update

EUR millions

**17.6a. Current account. Secondary income.**  
**Workers' remittances. Debits. Main countries**

**17. BALANCE OF PAYMENTS AND INTERNATIONAL INVESTMENT POSITION**  
**A) Balance of payments**

a. La composición de las zonas económicas se detalla en las notas al final del capítulo. / The composition of economic areas is detailed in the notes at the end of the chapter.  
b. La diferencia entre los importes asignados al total mundial y la suma de las zonas geográficas corresponde a información que ha quedado indeterminada geográficamente y a las cantidades de organismos internacionales distintos de los de la Unión Europea. La existencia de información indeterminada geográficamente también puede provocar que los totales por continente no coincidan con la suma de sus partes cuando estos se desglosan. / The difference between the amount assigned to the world total and the sum of the amounts for all the geographical areas is due to data without a geographical assignation and data from international institutions other than European Union. The presence of information without geographical assignation may also promote that the total amount for continents are not necessarily equal to the sum of their components.

**17. BALANCE OF PAYMENTS AND INTERNATIONAL INVESTMENT POSITION**
