(a) Total euro banknotes in circulation allocated to the Banco de España in accordance with its share in the capital of the European Central Bank. The difference between this amount and the net amount effectively placed in circulation by the ECB (Column 2) is recorded as an intra-Eurosystem claim/liability relating to banknote issuance (see Table 7.2 and the note to the summary Banco de España's balance sheet at the end of this Bulletin).

(b) This amount may be negative if the Banco de España puts into circulation fewer banknotes than it withdraws, since there are banknotes in circulation which were actually distributed by another Eurosystem central bank. This effect is significant due to, among other things, the high tourist inflow into Spain. Note that this column does not state the euro banknotes actually in circulation in Spain, but rather the banknotes distributed in net terms by the Banco de España.

(c) Banknotes distributed less banknotes withdrawn in each period. Calculated as the difference between column 1 of Table 7.17 (distributed) and column 1 of Table 7.18 (withdrawn).
