a. NDER rates do not include associated expenses, such as amortisation insurance premiums and fees to cover related direct costs. The purpose of the NDER rates is essentially to provide to the Eurosystem relevant information for the analysis of the transmission of monetary policy, unlike APRC rates, they are not an appropriate or comparable indication of the total cost to the customer of the financing granted.

b. For these deposits new business are equivalent to the outstanding amounts, therefore these interest rates are the same as those showed in Table 19.10.
