(a) Seasonally adjusted series. In the case of countries, except Switzerland, the series are also adjusted for the calendar effect.

(b) The data for the OECD area is in USD and the data for the EU aggregate is in euros. The data for the euro area countries up to 1998 Q4 have been obtained applying the irrevocable euro conversion rates to the national currency series. As the euro area aggregate for that period has been obtained applying the respective exchange rates in ECU to the national currency series, this aggregate is not equal to the sum of the constituent countries.

(c) From May 2022 OECD data is used.
