a. The criteria used to disaggregate the number of payment cards according to their function (i.e credit and debit function) have been modified in first quarter 2018. These new criteria imply a significant change on the figures shown under this breakdown. Previous to this date, the published figures were estimations based on information provided by the Spanish card payment schemes. Since Q1 2018, however, data are reported by the payment service providers adhered to the Spanish card payment schemes, according to the requirements set out in Regulation (EU) 2015/751 of the European Parliament and of the Council of 29 April 2015 on interchange fees for card-based payment transactions. Finally, and in order to ease an homogeneous comparison, the inter annual variation rates has been calculated by using the new criteria back to 2017 estimated data
